Resolution 24-__

**RESOLUTION TO AUTHORIZE COOPERATIVE PURCHASING WITH THE
UNITED STATES GENERAL SERVICES ADMINISTRATION (GSA)
COOPERATIVE PURCHASING PROGRAM FOR THE USE AND BENEFIT
OF ALL COUNTY DEPARTMENTS**

WHEREAS, Tennessee Code Annotated (TCA) §12-3-1205 allows for master cooperative purchasing agreements upon the approval and consent of the local legislative body; and

WHEREAS, cooperative purchasing agreements allow local governments to purchase goods and services from other local, state and national cooperative purchasing alliances that have been competitively bid under the same requirements as required by the laws of the purchasing entity; and

WHEREAS, Tennessee state law was amended at the request of the Tennessee Association of Public Purchasing and the Tennessee County Commissioner's Association for all Tennessee counties to take advantage of cooperative purchasing agreements in effect throughout our state and nation; and

WHEREAS, Tennessee Code Annotated, Section 12-3-1205, states as follows:

- (1) Notwithstanding any other law to the contrary, any municipality county, utility district, or other local government of the state may participate in, sponsor, conduct, or administer a cooperative purchasing agreement for the procurement of any goods, supplies, services, or equipment with one (1) or more other governmental entities outside this state, to the extent the laws of the other state permit the joint exercise of purchasing authority, in accordance with an agreement entered into between or among the participants; provided, such goods, supplies, services, or equipment were procured in a manner that constitutes competitive bidding and were advertised, evaluated, and awarded by a governmental entity and made available for use by other governmental entities.
- (2) A municipality, county, utility district, or other local government of the state may participate in a master agreement by adopting a resolution accepting the terms of the master agreement. If a participant in a joint or multi-party agreement is required to advertise and receive bids, then it will be deemed sufficient for those purposes that the purchasing entity or the entity that procured the bid complied with its own purchasing requirements. The participant shall acquire and maintain documentation that the purchasing entity or entities that procured the bid complied with its own purchasing requirements.

WHEREAS, Hamblen County desires to take advantage of this law and reduce the taxpayer burden for duplication of services while still taking advantage of the lowest and best pricing under the master cooperative agreements that have been competitively bid under the same requirements as required by the laws of the purchasing entity.

NOW THEREFORE BE IT RESOLVED that the Board of County Commissioners of Hamblen County, Tennessee, assembled in Regular Session, this 22nd day of August, 2024, shall hereby agree to the terms and authorize the use of the following master cooperative purchasing agreements whose membership is voluntary and of no cost to the county:

U.S. General Services Administration Cooperative Purchasing Program Known as GSA Advantage. (See Exhibit 1)

This resolution shall take effect from and after its passage. All resolutions in conflict herewith be and the same rescinded insofar as such conflict exists.

Approved this 22nd day of August, 2024.

Cooperative Purchasing Program

Solutions for State and Local Governments

GSA's Cooperative Purchasing Program allows state and local governments to purchase mission-ready supplies and services to meet immediate needs or future requirements. Access thousands of nationwide, pre-vetted vendors who offer a wide array of commercial information technology (IT) and law enforcement products, services, and integrated solutions.

The Cooperative Purchasing Program saves time and money while supporting your mission. As authorized by statute, state and local governments can buy a variety of commercial products and services under specific Multiple Award Schedule (a.k.a. "MAS" or "Schedule") contracts for IT and security solutions.

Eligible Users

The term "state and local government" includes any state, local, regional, or tribal or territorial government, or any instrumentality thereof, including local educational entities and institutions of higher education.

Features of the Cooperative Purchasing Program

- Total solutions for IT, law enforcement, and security
- Prices that represent not-to-exceed ceiling prices and the ability to negotiate additional discounts
- Direct vendor-customer relationship
- Interoperable products to meet Homeland Security needs
- Value-added features:
 - Warranty
 - Expedited delivery
 - Commercial terms and conditions
- Access to expert customer assistance
- Free access to GSA eTools* with contractor-search and purchasing capabilities
 - GSA Advantage!®: GSA's online shopping and ordering system that provides the government with access to thousands of contractors and a variety of products and services
 - GSA eBuy: the component of GSA Advantage! designed to facilitate the request for submission of quotations for commercial products and services
 - GSA eLibrary: GSA's online source for the latest contract-award information
- Complimentary training

*Schedule contractors participating in the Cooperative Purchasing Program are noted in GSA eTools with the Cooperative Purchasing Program icon:

If you have questions or want to speak with a GSA customer service representative near you, visit www.gsa.gov/csd

Solutions Available through the Cooperative Purchasing Program

The program offers a variety of procurement solutions through GSA's IT category and Security and Protection category. Below is a small sampling of the products and services available through the Cooperative Purchasing Program.

IT Category

IT products, services, and integrated solutions available through the IT category and subcategories.

- Mobile device management (MDM) and mobile application management (MAM) tools
- Automated data-processing equipment (firmware)
- Software
- Cloud-computing services
- Hardware
- Support equipment
- Professional IT services

Security and Protection Category

Law enforcement, security, facilities-management, fire, rescue, clothing, and marine craft solutions available through the Security and Protection category include:

- Law enforcement and security equipment
- Firefighting and rescue equipment (urban and wildland)
- Marine craft and equipment
- Alarm and signal system
- Facility-management systems
- Special-purpose clothing Blanket Purchase Agreements (BPAs)

Blanket Purchase Agreements

State and local governments have access through the following BPAs awarded from the IT category:

- 2nd Generation IT (2GIT) in-scope, pre-competed BPAs for commercial hardware, software, and ancillary services, including:
 - Purchase of new electronic equipment
 - Equipment maintenance, repair services, and/or repair/spare parts
 - Software licenses (term software and perpetual)
 - Software maintenance services
 - Order-level materials (OLMs)
- Licenses and support for management, security, enterprise messaging, disposal, and disposition reporting
- Network connectivity and other coverage enhancements
- Software Purchase Agreements (formerly SmartBUY) BPAs for software and support services offer:
 - Database management
 - Enterprise management system software (EMS)
 - Information assurance
- National Information Technology Commodity Program (NITCP) BPAs offer:
 - Mobile solutions, including headsets, webcams, and Voice over Internet Protocol (VoIP) phones
 - Monitors, including cathode-ray tube (CRT), liquid-crystal display (LCD), plasma, touchscreen, and organic light-emitting display (OLED) monitors
 - Data-center equipment, including routers, servers, racks, and other data-storage options
 - Computers, including laptop, notebook, netbook, and desktop computers
 - Video teleconferencing (VTC) solutions, including VTC equipment and complete system
 - Tablets that comply with the Trade Agreements Act (TAA)

Resolution 24-__

**A RESOLUTION TO ADD FEDERAL PURCHASING LANGUAGE INTO THE
HAMBLÉN COUNTY GOVERNMENT'S PURCHASING POLICIES**

WHEREAS, funding for state and federal grants includes contract language requiring procurement compliance with 2 C.F.R. § 200.317-200.326; and,

WHEREAS, § 200.317 states:

When procuring property and services under a Federal award, a State must follow the same policies and procedures it uses for procurements from its non-Federal funds. The State will comply with §§ 200.321, 200.322, and 200.323 and ensure that every purchase order or other contract includes any clauses required by § 200.327. All other non-Federal entities, including subrecipients of a State, must follow the procurement standards in §§ 200.318 through 200.327; and,

WHEREAS, Hamblen County Government has, and will be, awarded funding through federal and state grants awards and, as a subrecipient, must maintain compliance with the set Code of Federal Regulations; and,

WHEREAS, the current Hamblen County Government Purchasing Policies do not recognize this requirement.

THEREFORE, BE IT RESOLVED, that the Hamblen County Legislative Body agrees to include the language of 2 C.F.R. § 200.317, as stated above, into Hamblen County Government's Purchasing Policies.

Duly passed and approved this _____ day of _____, 2024.

Chris Cutshaw, Chairman HCLB

Bill Brittain, Hamblen County Mayor

ATTESTED: _____

Peggy Henderson, County Clerk

**Memorandum of Understanding
Between
City of Morristown
And
Hamblen County**

Purpose: This Memorandum of Understanding (MOU) outlines the terms and conditions under which the City of Morristown and Hamblen County agree to collaborate on the utilization of opioid settlement funds for joint local opioid abatement programs.

Background:

Whereas, the City of Morristown and Hamblen County recognize the significant impact of the opioid crisis within our communities.

Whereas, the City of Morristown and Hamblen County will each receive opioid settlement payments until 2038.

Whereas, both parties are committed to combating the opioid epidemic through coordinated efforts and effective use of resources.

Terms and Conditions:

1. Utilization of Funds:

- a. The City of Morristown agrees to transfer to Hamblen County 100% of the opioid settlement funds either allocated or which it has already received and all future payments for the purposes of supporting opioid abatement programs.
- b. Hamblen County agrees to utilize the transferred funds exclusively for opioid abatement initiatives as outlined [in Exhibit E \(list of Opioid Remediation Uses\)](#) of the national opioid settlement documents.

2. Joint Planning and Implementation:

- a. The Morristown City Council will appoint one (1) person to Hamblen County's existing Opioid Abatement Committee to represent the City's interest or needs.
- b. The opioid Abatement Committee will guide and provide recommendations for efforts such as the allocation of funds, funding priorities, program activities, project timelines, and the development of performance metrics.

3. Partnership Goals:

- a. The Opioid Abatement Committee will review current substance abuse resources to identify existing service gaps and duplicative efforts within the community.
- b. The Opioid Abatement Committee will work with City Council and County Commission leadership and with other community partners to ensure

that these coordinated investments provide a comprehensive network of services countywide.

4. Reporting and Accountability:

- a. The City’s subdivision funds currently allocated or held on account and mentioned above and future payments will be transferred to the County within 60 days once the City has received the payment from the national opioid settlement administrator(s).
- b. Once the funds have been transferred, the County, with guidance from the Opioid Abatement Committee, will have full responsibility for ensuring that the funds are used and expended for approved opioid abatement initiatives consistent with those listed in Exhibit E. The County Commission will appropriate the opioid settlement monies after reviewing the Opioid Abatement Committee recommendations.
- c. Hamblen County will provide annual updates to City Council on the progress and outcomes of opioid abatement programs financed by the settlement funds.
- d. Both parties agree to maintain transparency and accountability in the use of funds, including the provision of financial reports and audits upon request.

5. Duration and Amendment:

- a. This MOU shall commence upon signature by both parties and shall remain in effect until either party wishes to terminate the agreement within a 60-day written notice.
- b. Any amendments to this MOU must be mutually agreed upon in writing by both parties.
- c. The termination of this agreement shall immediately relieve the County of its responsibilities to comply with the requirements for the reporting of the utilization and expenditure of the funds otherwise received by the City.
- d. The termination of this agreement shall immediately relieve the City of its duty to submit all future opioid settlement payments to the County.

This MOU shall be executed in duplicate originals, with each party retaining one original.

Bill Brittain, Hamblen County Mayor

Date

Gary Chesney, Mayor, City of Morristown

Date

**Tennessee Opioid Abatement Council
Revised & Adopted September 30, 2022**

EXHIBIT E

**Tennessee's Opioid Abatement
& Remediation Uses**

**Schedule A
Core Strategies**

- A. NALOXONE OR OTHER FDA-APPROVED DRUG TO REVERSE OPIOID OVERDOSES**
1. Expand training for first responders, schools, community support groups and families; and
 2. Increase distribution to individuals who are uninsured or whose insurance does not cover the needed service.
- B. MEDICATION-ASSISTED TREATMENT ("MAT") DISTRIBUTION AND OTHER OPIOID-RELATED TREATMENT**
1. Increase distribution of MAT to individuals who are uninsured or whose insurance does not cover the needed service;
 2. Provide education to school-based and youth-focused programs that discourage or prevent misuse;
 3. Provide MAT education and awareness training to healthcare providers, EMTs, law enforcement, and other first responders; and
 4. Provide treatment and recovery support services such as residential and inpatient treatment, intensive outpatient treatment, outpatient therapy or counseling, and recovery housing that allow or integrate medication and with other support services.
- C. PREGNANT & POSTPARTUM WOMEN**
1. Expand Screening, Brief Intervention, and Referral to Treatment ("*SBIRT*") services to non-Medicaid eligible or uninsured pregnant women;
 2. Expand comprehensive evidence-based treatment and recovery services,

including MAT, for women with co- occurring Opioid Use Disorder ("OUD") and other Substance Use Disorder ("SUD")/Mental Health disorders for uninsured individuals for up to 12 months postpartum; and

3. Provide comprehensive wrap-around services to individuals with OUD, including housing, transportation, job placement/training, and childcare.

D. EXPANDING TREATMENT FOR NEONATAL ABSTINENCE SYNDROME ("NAS")

1. Expand comprehensive evidence-based and recovery support for NAS babies;
2. Expand services for better continuum of care with infant- need dyad; and
3. Expand long-term treatment and services for medical monitoring of NAS babies and their families.

E. EXPANSION OF WARM HAND-OFF PROGRAMS AND RECOVERY SERVICES

1. Expand services such as navigators and on-call teams to begin MAT in hospital emergency departments;
2. Expand warm hand-off services to transition to recovery services;
3. Broaden scope of recovery services to include co-occurring SUD or mental health conditions;
4. Provide comprehensive wrap-around services to individuals in recovery, including housing, transportation, job placement/training, and childcare; and
5. Hire additional social workers or other behavioral health workers to facilitate expansions above.

F. TREATMENT FOR INCARCERATED POPULATION

1. Provide evidence-based treatment and recovery support, including MAT for persons with OUD and co-occurring SUD/MH disorders within and transitioning out of the criminal justice system; and
2. Increase funding for jails to provide treatment to inmates with OUD.

G. PREVENTION PROGRAMS

1. Funding for media campaigns to prevent opioid use (similar to the FDA's "Real Cost" campaign to prevent youth from misusing tobacco);

2. Funding for evidence-based prevention programs in schools;
3. Funding for medical provider education and outreach regarding best prescribing practices for opioids consistent with the CDC's Updated Clinical Practice Guideline for Prescribing Opioids, the Tennessee Department of Health Chronic Pain Guideline, and current evidence;
4. Funding for community drug disposal programs; and
5. Funding and training for first responders to participate in pre-arrest diversion programs, post-overdose response teams, or similar strategies that connect at-risk individuals to behavioral health services and supports.

H. EXPANDING SYRINGE SERVICE PROGRAMS

1. Provide comprehensive syringe services programs with more wrap-around services, including linkage to OUD treatment, access to sterile syringes and linkage to care and treatment of infectious diseases.

**I. EVIDENCE-BASED DATA COLLECTION AND RESEARCH
ANALYZING THE EFFECTIVENESS OF THE ABATEMENT
STRATEGIES WITHIN THE STATE**

**Schedule B
Approved Uses**

Support treatment of Opioid Use Disorder (OUD) and any co-occurring Substance Use Disorder or Mental Health (SUD/MH) conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

PART ONE: TREATMENT

A. TREAT OPIOID USE DISORDER (OUD)

Support treatment of Opioid Use Disorder ("OUD") and any co-occurring Substance Use Disorder or Mental Health ("SUDMH") conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, those that:²

1. Expand availability of treatment for OUD and any co-occurring SUD/MH conditions, including all forms of Medication-Assisted Treatment ("MAT") approved by the U.S. Food and Drug Administration.
2. Support and reimburse evidence-based services that adhere to the American Society of Addiction Medicine ("ASAM") continuum of care for OUD and any co-occurring SUD/MH conditions.
3. Expand telehealth to increase access to treatment for OUD and any co-occurring SUD/MH conditions, including MAT, as well as counseling, psychiatric support, and other treatment and recovery support services.
4. Improve oversight of Opioid Treatment Programs ("OTPs") to assure evidence-based or evidence-informed practices such as adequate methadone dosing and low threshold approaches to treatment.
5. Support mobile intervention, treatment, and recovery services, offered by qualified professionals and service providers, such as peer recovery coaches, for persons with OUD and any co-occurring SUD/MH conditions and for persons who have experienced an opioid overdose.
6. Provide treatment of trauma for individuals with OUD (e.g., violence, sexual assault, human trafficking, or adverse childhood experiences) and family members (e.g., surviving family members after an overdose or overdose fatality), and training of health care personnel to identify and address such

trauma.

7. Support evidence-based withdrawal management services for people with OUD and any co-occurring mental health conditions.
8. Provide training on MAT for health care providers, first responders, students, or other supporting professionals, such as peer recovery coaches or recovery outreach specialists, including telementoring to assist community-based providers in rural or underserved areas.
9. Support workforce development for addiction professionals who work with persons with OUD and any co-occurring SUD/MH conditions.
10. Offer fellowships for addiction medicine specialists for direct patient care, instructors, and clinical research for treatments.
11. Offer scholarships and supports for behavioral health practitioners or workers involved in addressing OUD and any co-occurring SUD/MH or mental health conditions, including, but not limited to, training, scholarships, fellowships, loan repayment programs, or other incentives for providers to work in rural or underserved areas.
12. Provide funding and training for clinicians to obtain a waiver under the federal Drug Addiction Treatment Act of 2000 ("DATA 2000") to prescribe MAT for OUD, and provide technical assistance and professional support to clinicians who have obtained a DATA 2000 waiver.
13. Disseminate web-based training curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service-Opioids web-based training curriculum and motivational interviewing.
14. Develop and disseminate new curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service for Medication-Assisted Treatment.

B. SUPPORT PEOPLE IN TREATMENT AND RECOVERY

Support people in recovery from OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the programs or strategies that:

1. Provide comprehensive wrap-around services to individuals with OUD and any co-occurring SUD/MH conditions, including housing, transportation, education, job placement, job training, or childcare.
2. Provide the full continuum of care of treatment and recovery services for OUD

and any co-occurring SUD/MH conditions, including supportive housing, peer support services and counseling, community navigators, case management, and connections to community-based services.

3. Provide counseling, peer-support, recovery case management and residential treatment with access to medications for those who need it to persons with OUD and any co-occurring SUD/MH conditions.
4. Provide access to housing for people with OUD and any co-occurring SUD/MH conditions, including supportive housing, recovery housing, housing assistance programs, training for housing providers, or recovery housing programs that allow or integrate FDA-approved medication with other support services.
5. Provide community support services, including social and legal services, to assist in deinstitutionalizing persons with OUD and any co-occurring SUD/MH conditions.
6. Support or expand peer-recovery centers, which may include support groups, social events, computer access, or other services for persons with OUD and any co-occurring SUD/MH conditions.
7. Provide or support transportation to treatment or recovery programs or services for persons with OUD and any co-occurring SUD/MH conditions.
8. Provide employment training or educational services for persons in treatment for or recovery from OUD and any co-occurring SUD/MH conditions.
9. Identify successful recovery programs such as physician, pilot, and college recovery programs, and provide support and technical assistance to increase the number and capacity of high-quality programs to help those in recovery.
10. Engage non-profits, faith-based communities, and community coalitions to support people in treatment and recovery and to support family members in their efforts to support the person with OUD in the family.
11. Provide training and development of procedures for government staff to appropriately interact and provide social and other services to individuals with or in recovery from OUD, including reducing stigma.
12. Support stigma reduction efforts regarding treatment and support for persons with OUD, including reducing the stigma on effective treatment.
13. Create or support culturally appropriate services and programs for persons with OUD and any co-occurring SUD/MH conditions, including new

Americans.

14. Create and/or support recovery high schools.
15. Hire or train behavioral health workers to provide or expand any of the services or supports listed above.

C. CONNECT PEOPLE WHO NEED HELP TO THE HELP THEY NEED (CONNECTIONS TO CARE)

Provide connections to care for people who have--or are at risk of developing-- OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, those that:

1. Ensure that health care providers are screening for OUD and other risk factors and know how to appropriately counsel and treat (or refer if necessary) a patient for OUD treatment.
2. Fund SBIRT programs to reduce the transition from use to disorders, including SBIRT services to pregnant women who are uninsured or not eligible for Medicaid.
3. Provide training and long-term implementation of SBIRT in key systems (health, schools, colleges, criminal justice, and probation), with a focus on youth and young adults when transition from misuse to opioid disorder is common.
4. Purchase automated versions of SBIRT and support ongoing costs of the technology.
5. Expand services such as navigators and on-call teams to begin MAT in hospital emergency departments.
6. Provide training for emergency room personnel treating opioid overdose patients on post-discharge planning, including community referrals for MAT, recovery case management or support services.
7. Support hospital programs that transition persons with OUD and any co-occurring SUD/MH conditions, or persons who have experienced an opioid overdose, into clinically appropriate follow-up care through a bridge clinic or similar approach.
8. Support crisis stabilization centers that serve as an alternative to hospital emergency departments for persons with OUD and any co-occurring SUD/MH conditions or persons that have experienced an opioid overdose.

9. Support the work of Emergency Medical Systems, including peer support specialists, to connect individuals to treatment or other appropriate services following an opioid overdose or other opioid-related adverse event.
10. Provide funding for peer support specialists or recovery coaches in emergency departments, detox facilities, recovery centers, recovery housing, or similar settings; offer services, supports, or connections to care to persons with OUD and any co-occurring SUD/MH conditions or to persons who have experienced an opioid overdose.
11. Expand warm hand-off services to transition to recovery services.
12. Create or support school-based contacts that parents can engage with to seek immediate treatment services for their child; and support prevention, intervention, treatment, and recovery programs focused on young people.
13. Develop and support best practices on addressing OUD in the workplace.
14. Support assistance programs for health care providers with OUD.
15. Engage non-profits and the faith community as a system to support outreach for treatment.
16. Support centralized call centers that provide information and connections to appropriate services and supports for persons with OUD and any co-occurring SUD/MH conditions.

D. ADDRESS THE NEEDS OF CRIMINAL JUSTICE-INVOLVED PERSONS

Address the needs of persons with OUD and any co-occurring SUD/MH conditions who are involved in, are at risk of becoming involved in, or are transitioning out of the criminal justice system through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, those that:

1. Support pre-arrest or pre-arraignment diversion and deflection strategies for persons with OUD and any co-occurring SUD/MH conditions; including established strategies such as:
 1. Self-referral strategies such as the Angel Programs or the Police Assisted Addiction Recovery Initiative ("PAARI");
 2. Active outreach strategies such as the Drug Abuse Response Team ("DART")

model;

3. "Naloxone Plus" strategies, which work to ensure that individuals who have received naloxone to reverse the effects of an overdose are then linked to treatment programs or other appropriate services;
 4. Officer prevention strategies, such as the Law Enforcement Assisted Diversion ("*LEAD*") model;
 5. Officer intervention strategies such as the Leon County, Florida Adult Civil Citation Network or the Chicago Westside Narcotics Diversion to Treatment Initiative; or
 6. Co-responder and/or alternative responder models to address ODD-related 911 calls with greater SUD expertise.
2. Support pre-trial services that connect individuals with OUD and any co-occurring SUD/MH conditions to evidence-informed treatment, including MAT, and related services.
 3. Support treatment and recovery courts that provide evidence-based options for persons with OUD and any co-occurring SUD/MH conditions.
 4. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are incarcerated in jail or prison.
 5. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are leaving jail or prison or have recently left jail or prison, are on probation or parole, are under community corrections supervision, or are in re-entry programs or facilities.
 6. Support critical time interventions ("*CTI*"), particularly for individuals living with dual-diagnosis OUD/serious mental illness, and services for individuals who face immediate risks and service needs and risks upon release from correctional settings.
 7. Provide training on best practices for addressing the needs of criminal justice- involved persons with OUD and any co-occurring SUD/MH conditions to law enforcement, correctional, or judicial personnel or to providers of treatment, recovery, harm reduction, case management, or

other services offered in connection with any of the strategies described in this section.

E. ADDRESS THE NEEDS OF PREGNANT OR PARENTING WOMEN AND THEIR FAMILIES, INCLUDING BABIES WITH NEONATAL ABSTINENCE SYNDROME

Address the needs of pregnant or parenting women with OUD and any co-occurring SUD/MH conditions, and the needs of their families, including babies with neonatal abstinence syndrome ("NAS"), through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, those that:

1. Support evidence-based or evidence-informed treatment, including MAT, recovery services and supports, and prevention services for pregnant women---or women who could become pregnant---who have OUD and any co-occurring SUD/MH conditions, and other measures to educate and provide support to families affected by Neonatal Abstinence Syndrome.
2. Expand comprehensive evidence-based treatment and recovery services, including MAT, for uninsured women with OUD and any co-occurring SUD/MH conditions for up to 12 months postpartum.
3. Provide training for obstetricians or other healthcare personnel who work with pregnant women and their families regarding treatment of OUD and any co-occurring SUD/MH conditions.
4. Expand comprehensive evidence-based treatment and recovery support for NAS babies; expand services for better continuum of care with infant-need dyad; and expand long-term treatment and services for medical monitoring of NAS babies and their families.
5. Provide training to health care providers who work with pregnant or parenting women on best practices for compliance with federal requirements that children born with NAS get referred to appropriate services and receive a plan of safe care.
6. Provide child and family supports for parenting women with OUD and any co-occurring SUD/MH conditions.
7. Provide enhanced family support and childcare services for parents with OUD and any co-occurring SUD/MH conditions.
8. Provide enhanced support for children and family members suffering trauma as a result of addiction in the family; and offer trauma-informed

behavioral health treatment for adverse childhood events.

9. Offer home-based wrap-around services to persons with OUD and any co-occurring SUD/MH conditions, including, but not limited to, parent skills training.
10. Provide support for Children's Services-Fund additional positions and services, including supportive housing and other residential services, relating to children being removed from the home and/or placed in foster care due to custodial opioid use.

PART TWO: PREVENTION

F. PREVENT OVER-PRESCRIBING AND ENSURE APPROPRIATE PRESCRIBING AND DISPENSING OF OPIOIDS

Support efforts to prevent over-prescribing and ensure appropriate prescribing and dispensing of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Funding for medical provider education and outreach regarding best prescribing practices for opioids consistent with the CDC's Updated Clinical Practice Guideline for Prescribing Opioids, the Tennessee Department of Health Chronic Pain Guideline, and current evidence.
2. Training for health care providers regarding safe and responsible opioid prescribing, dosing, and tapering patients off opioids.
3. Continuing Medical Education (CME) on appropriate prescribing of opioids.
4. Providing Support for non-opioid pain treatment alternatives, including training providers to offer or refer to multi-modal, evidence-informed treatment of pain.
5. Supporting enhancements or improvements to Prescription Drug Monitoring Programs ("PDMPs"), including, but not limited to, improvements that:
 1. Increase the number of prescribers using PDMPs;
 2. Improve point-of-care decision-making by increasing the quantity, quality, or format of data available to prescribers using PDMPs, by improving the interface that prescribers use to access PDMP data, or both; or

3. Enable states to use PDMP data in support of surveillance or intervention strategies, including MAT referrals and follow-up for individuals identified within PDMP data as likely to experience OUD in a manner that complies with all relevant privacy and security laws and rules.
6. Ensuring PDMPs incorporate available overdose/naloxone deployment data, including the United States Department of Transportation's Emergency Medical Technician overdose database in a manner that complies with all relevant privacy and security laws and rules.
7. Increasing electronic prescribing to prevent diversion or forgery.
8. Educating dispensers on appropriate opioid dispensing.

G. PREVENT MISUSE OF OPIOIDS

Support efforts to discourage or prevent misuse of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Funding media campaigns to prevent opioid misuse.
2. Corrective advertising or affirmative public education campaigns based on evidence.
3. Public education relating to drug disposal.
4. Drug take-back disposal or destruction programs.
5. Funding community anti-drug coalitions that engage in drug prevention efforts.
6. Supporting community coalitions in implementing evidence-informed prevention, such as reduced social access and physical access, stigma reduction-including staffing, educational campaigns, support for people in treatment or recovery, or training of coalitions in evidence-informed implementation, including the Strategic Prevention Framework developed by the U.S. Substance Abuse and Mental Health Services Administration ("SAMHSA").
7. Engaging non-profits and faith-based communities as systems to support prevention.
8. Funding evidence-based prevention programs in schools or evidence-informed school and community education programs and campaigns for students, families, school employees, school athletic programs, parent-teacher and

student associations, and others.

9. School-based or youth-focused programs or strategies that have demonstrated effectiveness in preventing drug misuse and seem likely to be effective in preventing the uptake and use of opioids.
10. Create or support community-based education or intervention services for families, youth, and adolescents at risk for OUD and any co-occurring SUD/MH conditions.
11. Support evidence-informed programs or curricula to address mental health needs of young people who may be at risk of misusing opioids or other drugs, including emotional modulation and resilience skills.
12. Support greater access to mental health services and supports for young people, including services and supports provided by school nurses, behavioral health workers or other school staff, to address mental health needs in young people that (when not properly addressed) increase the risk of opioid or another drug misuse.

H. PREVENT OVERDOSE DEATHS AND OTHER HARMS (HARM REDUCTION)

Support efforts to prevent or reduce overdose deaths or other opioid-related harms through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Increased availability and distribution of naloxone and other drugs that treat overdoses for first responders, overdose patients, individuals with OUD and their friends and family members, schools, community navigators and outreach workers, persons being released from jail or prison, or other members of the general public.
2. Public health entities providing free naloxone to anyone in the community.
3. Training and education regarding naloxone and other drugs that treat overdoses for first responders, overdose patients, patients taking opioids, families, schools, community support groups, and other members of the general public.
4. Enabling school nurses and other school staff to respond to opioid overdoses, and provide them with naloxone, training, and support.
5. Expanding, improving, or developing data tracking software and applications for overdoses/naloxone revivals.
6. Public education relating to emergency responses to overdoses.

7. Public education relating to immunity and Good Samaritan laws.
8. Educating first responders regarding the existence and operation of immunity and Good Samaritan laws.
9. Syringe service programs and other evidence-informed programs to reduce harms associated with intravenous drug use, including supplies, staffing, space, peer support services, referrals to treatment, fentanyl checking, connections to care, and the full range of harm reduction and treatment services provided by these programs.
10. Expanding access to testing and treatment for infectious diseases such as HIV and Hepatitis C resulting from intravenous opioid use.
11. Supporting mobile units that offer or provide referrals to harm reduction services, treatment, recovery supports, health care, or other appropriate services to persons that use opioids or persons with OUD and any co-occurring SUD/MH conditions.
12. Providing training in harm reduction strategies to health care providers, students, peer recovery coaches, recovery outreach specialists, or other professionals that provide care to persons who use opioids or persons with OUD and any co-occurring SUD/MH conditions.
13. Supporting screening for fentanyl in routine clinical toxicology testing.

PART THREE: OTHER STRATEGIES

I. FIRST RESPONDERS

In addition to items in section C, D and H relating to first responders, support the following:

1. Education of law enforcement or other first responders regarding appropriate practices and precautions when dealing with fentanyl or other drugs.
2. Provision of wellness and support services for first responders and others who experience secondary trauma associated with opioid-related emergency events.

J. LEADERSHIP, PLANNING AND COORDINATION

Support efforts to provide leadership, planning, coordination, facilitations, training and technical assistance to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, the following:

1. Statewide, regional, local or community regional planning to identify root causes of addiction and overdose, goals for reducing harms related to the opioid epidemic, and areas and populations with the greatest needs for treatment intervention services, and to support training and technical assistance and other strategies to abate the opioid epidemic described in this opioid abatement strategy list.
2. A dashboard to (a) share reports, recommendations, or plans to spend opioid settlement funds; (b) to show how opioid settlement funds have been spent; (c) to report program or strategy outcomes; or (d) to track, share or visualize key opioid- or health-related indicators and supports as identified through collaborative statewide, regional, local or community processes.
3. Invest in infrastructure or staffing at government or not-for-profit agencies to support collaborative, cross-system coordination with the purpose of preventing overprescribing, opioid misuse, or opioid overdoses, treating those with OUD and any co-occurring SUD/MH conditions, supporting them in treatment or recovery, connecting them to care, or implementing other strategies to abate the opioid epidemic described in this opioid abatement strategy list.
4. Provide resources to staff government oversight and management of opioid abatement programs.

K. TRAINING

In addition to the training referred to throughout this document, support training to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, those that:

1. Provide funding for staff training or networking programs and services to improve the capability of government, community, and not-for-profit entities to abate the opioid crisis.
2. Support infrastructure and staffing for collaborative cross-system coordination to prevent opioid misuse, prevent overdoses, and treat those with OUD and any co- occurring SUD/MH conditions, or implement other strategies to abate the opioid epidemic described in this opioid abatement strategy list (*e.g.*, health care, primary care, pharmacies, PDMPs, etc.).

L. RESEARCH

Support opioid abatement research that may include, but is not limited to, the following:

1. Monitoring, surveillance, data collection and evaluation of programs and strategies described in this opioid abatement strategy list.
2. Research non-opioid treatment of chronic pain.
3. Research on improved service delivery for modalities such as SBIRT that demonstrate promising but mixed results in populations vulnerable to opioid use disorders.
4. Research on novel harm reduction and prevention efforts such as the provision of fentanyl test strips.
5. Research on innovative supply-side enforcement efforts such as improved detection of mail-based delivery of synthetic opioids.
6. Expanded research on swift/certain/fair models to reduce and deter opioid misuse within criminal justice populations that build upon promising approaches used to address other substances (*e.g.*, Hawaii HOPE and Dakota 24/7).
7. Epidemiological surveillance of OUD-related behaviors in critical populations, including individuals entering the criminal justice system, including, but not limited to approaches modeled on the Arrestee Drug Abuse Monitoring (“ADAM”) system.
8. Qualitative and quantitative research regarding public health risks and harm reduction opportunities within illicit drug markets, including surveys of market participants who sell or distribute illicit opioids.
9. Geospatial analysis of access barriers to MAT and their association with treatment engagement and treatment outcomes.

Mr. Bill Brittain, County Mayor
Hamblen County Courthouse
511 West Second North Street
Morristown, TN 37814

**RE: INVOICES FOR LEGAL SERVICES RENDERED ON BEHALF
OF HAMBLLEN COUNTY, TENNESSEE - JULY, 2024**

Dear Bill:

Please find enclosed three (3) invoices representing legal services rendered on behalf of Hamblen County, Tennessee during the month of July, 2024.

As usual, one invoice covers our General/Miscellaneous File, and two (2) invoices cover separate county departments.

Please review these invoices, and if you have any questions, please do not hesitate to contact me.

With best regards, I remain,

Very truly yours,

A handwritten signature in blue ink that reads "Christopher P Capps/alg".

Christopher P. Capps

Resolution 24 - __

A RESOLUTION TO SEEK GOD’S HAND OF MERCY AND HEALING ON TENNESSEE

WHEREAS, our State and Nation suffer from violence committed upon our citizens by our citizens; and

WHEREAS, acts of violent crime in our schools are unacceptable; and

WHEREAS, human trafficking is an unacceptable and violent evil in our State, enslaving lives and violating the core values of our Creator-endowed rights to life, liberty, and the pursuit of happiness; and

WHEREAS, drug addiction overwhelms our families, our government finances, our workforce productivity, as well as our healthcare and our law enforcement resources; and

WHEREAS, deadly fentanyl flows uncontrollably across our southern U.S. border resulting in the deaths of Tennesseans; and

WHEREAS, Driving Under the Influence, drunk driving, results in great pain and injury for Tennessee families; and

WHEREAS, we have approximately 9,000 children in need of foster care, indicating a brokenness in many Tennessee homes; and

WHEREAS, evidence of corruption in our federal government stands to impact every Tennessean; and

WHEREAS, our National and State Founders trusted in the omnipotent hand of Providence to guide and bless our land; and

WHEREAS, over decades, these leaders called our people to seek out the Creator’s favor by issuing proclamations like the one from John Adams on April 15, 1799:

[This day] be observed throughout the United States of America as a day of solemn humiliation, fasting, and prayer; that the citizens on that day abstain, as far as may be, from their secular occupation, and devote the time to the sacred duties of religion, in public and in private; that they call to mind our numerous offenses against the most high God, confess them before Him with the sincerest penitence, implore his pardoning mercy, through the Great Mediator and Redeemer, for our past transgressions, and that through the grace of His Holy Spirit, we may be disposed and enabled to yield a more suitable obedience to his righteous requisitions in time to come; that He would interpose to arrest the progress of that impiety and licentiousness in principle and practice so offensive to Himself and so ruinous to mankind; that He would make us deeply sensible that “righteousness exalteth a nation, but sin is a reproach to any people.” [Proverbs 14:34]; and

WHEREAS, we hold that our Founders correctly acknowledged Truth in their words; and

WHEREAS, we hold that “Except the Lord keep the city, the watchman waketh but in vain” (Psalm 127:1); now, therefore,

NOW, THEREFORE, BE IT RESOLVED, that the Hamblen County Legislative Body, The House of Representatives of the One Hundred Thirteenth General Assembly of the State of Tennessee, and the Senate Concurring, that the period of July 1 through July 31 yearly be recognized as a time of prayer and fasting in Tennessee.

BE IT FURTHER RESOLVED, that we recognize that God, as Creator and King of all Glory, has both the authority to judge and to bless nations or states.

BE IT FURTHER RESOLVED, that we, as public servants with the Hamblen County Legislative Body, seek God's Mercy upon our land and beseech Him to not withdraw His Hand of blessing from us.

BE IT FURTHER RESOLVED, that we recognize our sins and shortcomings before Him and humbly ask His Forgiveness.

BE IT FURTHER RESOLVED, that we ask the Lord Jesus to heal our land and remove the violence, human-trafficking, addiction, and corruption.

BE IT FURTHER RESOLVED, that we ask that the Holy Spirit fill our halls of government, our classrooms, our places of business, our churches, and our homes with peace, love, and joy.

BE IT FURTHER RESOLVED, that we call upon all those who are physically able and spiritually inclined to do so to join in a thirty-day season of prayer and intermittent fasting as we begin a new fiscal year as a means of seeking God's blessing and humbling ourselves to receive His Grace and Mercy, transforming ourselves, our communities, our County, our State, and our Nation.

MEMO

TO: Trish Bowman
FROM: Sheriff Chad Mullins *CM mg*
DATE: August 6, 2024
RE: Vehicle Surplus Requests

Will you please include this request to surplus vehicles on the August 2024 committee agenda? The vehicles to be surplus include:

2002 Ford Explorer (used the by jail)
VIN 1FMZU73E02UB32100

2016 Dodge Charger (fleet vehicle)
VIN 2C3CDXAG1GH347451

The request is being made based on the high number of miles & mechanical issues on the Explorer and the costly mechanical issues on the Charger.

Once approved, photos of the vehicles and vehicle inspection forms will be forwarded to Sheri Canter so they may be added to GovDeals.

Thank you for your assistance on this matter.

mg

RESOLUTION 24-___
**A RESOLUTION TO AMEND THE POST-CONSTRUCTION STORMWATER
RUNOFF REGULATIONS
HAMBLÉN COUNTY, TENNESSEE
BOARD OF COUNTY COMMISSIONERS**
Updated August 2024

Whereas, uncontrolled storm water drainage and discharge have a significant, adverse impact on the health, safety, and general welfare of the residents of Hamblen County and an adverse impact on the natural environment by carrying pollutants into the receiving waters within the community; and

Whereas, Hamblen County is required by federal law, particularly 33 U.S.C 1342(p) and 40 CFR 1.22.26, to obtain a National Pollutant Discharge Elimination System (NPDES) permit through the Tennessee Department of Environment and Conservation (TDEC) to reduce storm water flows and associated pollutants discharged into waterways through Hamblen County's storm water system and drainage ways; and

Whereas, the NPDES permit requires Hamblen County to impose controls on future and existing development necessary to reduce the discharge of pollutants in storm water to the maximum reasonable extent using management practices, control techniques and systems design and engineering methods, and such other provides which are determined to be appropriate for the control of such pollutants; now therefore

Be is resolved by the Board of County Commissioners of Hamblen County, Tennessee that the Resolution for the Control of Post Construction Storm Water Runoff be read as follows:

**Resolution for the Control of
Post Construction Storm Water Runoff**

Table of Contents

Section 1	General Provisions
Section 2	Definitions
Section 3	Permit Procedures and Requirements
Section 4	Waivers
Section 5	General Performance Criteria for Storm Water Management
Section 6	Specific Performance Criteria for Storm Water Treatment Practices
Section 7	Requirements for Storm Water Management Plan Approval
Section 8	Construction Inspection Provisions
Section 9	Maintenance and Repair Requirements
Section 10	Enforcement and Violations

Section 1 General Provisions

1.1 Findings of Fact

It is hereby determined that: Land development projects and other associated construction activities increase impervious cover which alters the hydrologic response of local watersheds and increase storm water runoff rates and volumes, flooding, stream channel erosions, and sediment transport and deposition;

This storm water runoff contributes to increase quantities of water-borne pollutants, and Storm Water runoff, soil erosion and nonpoint source pollution can be controlled and minimized through the regulation of storm water runoff from development sites.

Therefore, the Hamblen County Planning Commission and Stormwater Staff established this set of water quality and quantity policies applicable to all surface waters to provide reasonable guidance for the regulation of storm water runoff for the purpose of protecting local water resources from degradation. It is determined that the regulation of storm water runoff discharges from land development projects and other construction activities in order to control and minimize increases in storm water runoff rates and volumes, soil erosion, stream channel erosion, and nonpoint source pollution associated with storm water runoff is in the public interest and will prevent threats to public health and safety.

1.2 Purpose

The purpose of this resolution is to establish minimum storm water management requirements and controls to protect and safeguard the general health, safety, and welfare of the public residing in watersheds within this jurisdiction. This resolution seeks to meet that purpose through the following objectives:

- (1) minimize increases in storm water runoff from any development in order to reduce flooding, siltation, increases in stream temperature, and streambank erosion and maintain the integrity of stream channels;
- (2) minimize increases in nonpoint source pollution caused by storm water runoff from development which would otherwise degrade local water quality;
- (3) minimize the total annual volume of surface water runoff which flows from any specific site during and following development to not exceed the pre-development hydrologic regime to the maximum extent practicable; and,
- (4) reduce storm water runoff rates and volumes, soil erosion and nonpoint source pollution, wherever possible, through storm water management controls and to ensure that these management controls are properly maintained and pose no threat to public safety.

1.3 Applicability

This resolution shall be applicable to all subdivision or site plan applications, unless eligible for an exemption or granted a waiver by the Hamblen County Planning Commission and Stormwater Staff under the specifications of Section 4 of this resolution. The resolution also applies to land development activities that are smaller than the minimum applicability criteria if such activities are part of a larger common plan of development that meets the following applicability criteria, even though multiple separate and distinct land development activities may take place at different times on different schedules. In addition, all plans may also be reviewed by local, state or federal environment protection officials to ensure that established water quality standards will be maintained during and after development of the site and that post construction runoff levels are consistent with any local and regional watershed plans.

To prevent the adverse impacts of storm water runoff, the Hamblen County Planning Commission and Stormwater Staff have developed a set of performance standards that must be met at new development sites. These standards apply to any construction activity disturbing one (1) acre or more of land area provided they are not part of a larger common development plan. The following activities may be exempt from these storm water performance criteria:

1. Any logging and agricultural activity which is consistent with an approved soil conservation plan or timber management plan prepared or approved by the Forestry Service Department or other state or federal agency regulating such activity, as applicable.
2. Placement of mobile homes and additions or modifications to existing single family structures that is not likely to cause significant runoff problems.
3. Developments that disturb less than one (1) acre of land area provided they are not part of a larger common development plan.
4. Repairs to any storm water treatment practice deemed necessary by Hamblen County Planning Commission and Stormwater Staff.
5. Other minor land disturbance activity that will not violate the provisions of this resolution due to the nature and size of the individual activity.

When a site development plan is submitted that qualifies as a redevelopment project as defined in Section 2 of this resolution, decisions on permitting and on-site storm water requirements shall be governed by special storm water sizing criteria found in the current Storm Water Design Manual. This criteria is dependent on the amount of impervious area created by the redevelopment and its impact on water quality. Final authorization of all redevelopment projects will be determined after a review by Hamblen County Planning Commission and Stormwater Staff.

1.4 Compatibility with Other Permit and Resolution Requirements

This resolution is not intended to interfere with, abrogate, or annul any other resolution, rule or regulation, statute, or other provision of law. The requirements of this resolution should be considered minimum requirements, and where any provision of this resolution imposes restrictions different from those imposed by any other resolution, rule or regulation, or other provision of law, whichever provisions are more restrictive or impose higher protective standards for human health, or the environment shall be considered to take precedence.

1.5 Severability

If the provisions of any article, section, subsection, paragraph, subdivision or clause of this resolution shall be judged invalid by a court of competent jurisdiction, such order of judgement shall not affect or invalidate the remainder of any article, section, subsection, paragraph, subdivision or clause of this resolution.

1.6 Development of a Storm Water Design Manual

The Hamblen County Planning Commission and Stormwater Staff may furnish additional policy, criteria and information including specifications and standards, for the proper implementation of the requirements of this resolution and may provide such information in the form of a local Storm Water Design Manual. For purposes of this resolution, or until further amended, this manual shall be the latest edition of the Northeast Tennessee Best Management Practices (NE TN BMP) Other methods may be used on a case-by-case basis if requested. For example: in the design of and implementation of specific BMPs, the Tennessee Erosion and Sediment Control Handbook is a commonly utilized as a reference manual.

Once a local design manual is developed, and adopted, it will include a list of acceptable storm water treatment practices, including the specific design criteria and operation and maintenance requirements for each storm water practice. The manual may be updated and expanded from time to time, at the discretion of the local review authority, based on improvements in engineering, science, monitoring and local maintenance experience. Storm Water treatment practices that are designed and constructed in accordance with the design and sizing criteria of the appropriate Storm Water Design Manual will be presumed to meet the minimum water quality performance standards.

Section 2 Definitions

Accelerated Erosion- Erosion caused by development activities that exceeds the natural processes by which the surface of the land is worn away by the action of water, wind, or chemical action.

Applicant- A property owner or agent of a property owner who has filed an application for a storm water management permit.

Building- Any structure, either temporary or permanent, having walls and a roof, designed for a shelter of any person, animal, or property, and occupying more than 120 square feet of area.

Channel- A natural or artificial watercourse with a definite bed and banks that conducts continuously or periodically flowing water.

Dedication- The deliberate appropriation of property by its owner for general public use.

Detention- The temporary storage of storm runoff in a storm water management practice with the goals of controlling peak discharge rates and providing gravity settling of pollutants.

Detention Facility- A detention basin or alternative structure designed for the purpose of temporary storage of ~~stream flow or~~ surface runoff and gradual release of stored water at controlled rates.

Developer- A person who undertakes land disturbance activities.

Drainage Easement- A legal right granted by a landowner to a grantee allowing the use of private land for storm water management purposes.

Erosion and Sediment Control Plan- A plan that is designed to minimize the accelerated erosion and sediment runoff at a site during construction activities.

Fee in Lieu- A payment of money in place of meeting all or part of the storm water performance standards required by this resolution.

Hotspot- An area where land use or activities generate highly contaminated runoff, with concentrations of pollutants in excess of those typically found in storm water.

Hydrologic Soil Group (HSG)- A Natural Resource Conservation Service classification system in which soils are categorized into four runoff potential groups. The groups range from A soils, with

high permeability and little runoff production, to D soils, which have low permeability rates and produce much more runoff.

Impervious Cover- Those surfaces that cannot effectively infiltrate rainfall (e.g., building rooftops, pavement, sidewalks, driveways, etc.)

Industrial Storm Water Permit- A National Pollutant Discharge Elimination System permit issued to a commercial industry or group of industries which regulates the pollutant levels associated with industrial storm water discharges or specifies on-site pollution control strategies.

Infiltration- The process of percolating storm water into the subsoil

Infiltration Facility- Any structure or device designed to infiltrate retained water to the subsurface. These facilities may be above grade or below grade.

Jurisdictional Wetland- An area that is inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support a prevalence of vegetation typically adapted for life in saturated soil conditions, commonly known as hydrophytic vegetation.

Land Disturbance Activity- Any activity which changes the volume or peak flow discharge rate of rainfall runoff from the land surface. This may include the grading, digging, cutting, scraping, or excavating of soil, placement of fill material, paving, construction, substantial removal of vegetation, or any activity which bares soil or rock or involves the diversion or piping of any natural or man-made watercourse.

Landowner- The legal or beneficial owner of land, including those holding the right to purchase or land the land, or any other person holding proprietary rights in the land.

Maintenance Agreement- A legally recorded document that acts as a property deed restriction, and which provides for long-term maintenance of storm water management practices.

Nonpoint Source Pollution- Pollution from any source other than from any discernible, confined, and discrete conveyances, and shall include, but not be limited to, pollutants from agricultural, silvicultural, mining, construction, subsurface disposal, and urban runoff sources.

Offset Fee- Monetary compensation paid to a local government for failure to meet pollutant load reduction targets.

Off-site Facility- A storm water management measure located outside the subject property boundary described in the permit application for land development activity.

On-Site Facility- A storm water management measure located within the subject property boundary described in the permit application for land development activity.

Redevelopment- Any construction, alteration or improvement exceeding one (1) acre (or if part of a larger development) in areas where existing land use is high density commercial, industrial, institutional, or multifamily residential.

Staff- For the purposes of these regulations, Staff includes the Stormwater Coordinator, office staff, Planning Commissioners (for approval of regulations and issues brought before the board), and the Stormwater Engineer. Not every issue will require the involvement of the Commissioners or the Engineer, but they are still considered Staff.

Stop Work Order- An order issued which requires that all construction activity on a site be stopped.

Storm Water Management- The use of structural or non-structural practices that are designed to reduce storm water runoff pollutant loads, discharge volumes, peak flow discharge rates and detrimental changes in stream temperature that affect water quality and habitat.

Storm Water Retrofit- A storm water management practice designed for an existing development site that previously had either no storm water management practice in place or a practice inadequate to meet the storm water management requirements of the site.

Storm Water Runoff- Flow on the surface of the ground, resulting from precipitation.

Storm Water Treatment Practices (STPs)- Measures, either structural or nonstructural, that are determined to be the most effective, practical means of preventing or reducing point source or nonpoint source pollution inputs to storm water runoff and water bodies.

Water Quality Volume (WQv)- The storage needed to capture and treat 90% of the average annual storm water runoff volume. Numerically (WQv) will vary as a function of long-term rainfall statistical data.

Watercourse- A permanent or intermittent stream or other body of water, either natural or man-made, which gathers or carries surface water.

Section 3

Permit Procedures and Requirements

3.1 Permit Required

No builder, landowner or land developer shall receive any of the building, grading, construction or land development permits required for land disturbance activities without first meeting the requirements of this resolution prior to commencing the proposed activity.

3.2 Application Requirement

Unless specifically excluded by this resolution, any builder, landowner or developer desiring a permit for a land disturbance activity shall submit to the Hamblen County Planning Commission and Stormwater Staff a permit application on a form provided for that purpose.

Unless otherwise excepted by this resolution, a permit application must be accompanied by the following in order that the permit application be considered: a storm water management concept plan; a maintenance agreement; and a non-refundable permit review fee.

The storm water management plan shall be prepared, by a qualified individual, and shall meet the requirements of Section 5 of this resolution, the maintenance agreement shall be likewise prepared to meet the requirements of Section 9 of this resolution, and fees shall be those established by the Hamblen County Planning Commission and Stormwater Staff.

3.3 Application Review Fees

The fee for review of any land development application shall be half the amount established by The Tennessee Department of Environment and Conservation (TDEC). All fees shall be made prior to the issuance of any permits for the intended construction or development project.

For one (1) to five (5) acres the cost shall be half the TDEC cost: \$250.00 = \$125.00.

For five (5) acres to twenty (20) acres the cost shall be half the TDEC cost: \$1,000.00 = \$500.00

3.4 Application Procedure

1. Applications for land disturbance activity permits (i.e. construction and development) must be filed with the Hamblen County Planning Commission and Stormwater Staff on any regular business day for review. Development permit applications that require a financial security instrument to be posted will be set by the Hamblen County Planning Commission and then filed with the office.
2. A copy of the development permit application shall be forwarded to the Hamblen County Planning Commission for review and approval at their next meeting. Construction permit applications that do not require a financial security instrument to be posted may be reviewed and approved by the Stormwater Staff.

3. Construction permit applications submitted for review and approval by the Stormwater Coordinator shall be completed and be accompanied by the required fee. Once approved by the Stormwater Coordinator and/or Staff all appropriate permits may then be issued.
4. Development permit applications submitted for review and approval by the Planning Commission shall include the following items: three (3) hard copies and one digital copy of the storm water management concept plan, three (3) hard copies and one digital copy of the maintenance agreement, three (3) hard copies and one digital copy of an acceptable cost estimate for the installation of all proposed storm water treatment practices, and be accompanied by any required applicable fees.
5. The applicant must attend the Planning Commission meeting for which their application (or other request) is scheduled. At this Planning Commission meeting, the Planning Commission shall review and determine if the request is approved or disapproved.
6. If the development permit application, storm water management plan, maintenance agreement or installation cost estimate are disapproved, the applicant may revise the management plan, agreement or estimate. If additional information is submitted, the Hamblen County Planning Commission and/or the Stormwater Staff shall review the additional information and inform the applicant that the plan, maintenance agreement or estimate are either approved or disapproved.

3.5 Land Disturbance Permit Duration

Permits issued under this section shall be valid from the date of issuance of permit through approval of the as-built drawing and final inspection has been approved.

Section 4 Waivers to Storm Water Management Requirements

4.1 Waivers for Providing Storm Water Management

Disclaimer: This section of the permit is required for Hamblen County to be in compliance with the State of Tennessee Department of Environment and Conservation. While it is not standard practice for the Hamblen County Stormwater Department to utilize Fees in Lieu of Stormwater Management Practices, the option is available for those who request it.

Every applicant shall provide for storm water management as required by this resolution, unless a written request is filed to waive this requirement. Requests to waive the storm water management plan requirements shall be submitted to the Hamblen County Planning Commission and Stormwater Staff for approval.

The minimum requirements for storm water management may be waived in whole or in part upon written request of the applicant, provided that at least one of the following conditions applies:

1. It can be demonstrated that the proposed development is not likely to impair attainment of the objectives of this resolution.
2. Alternative minimum requirements for on-site management of storm water discharges have been established in a storm water management plan that has been approved by the Hamblen County Planning Commission and Stormwater Staff and the implementation of the plan is required by local resolution.
3. Provisions are made to manage storm water by an off-site facility. The off-site facility is required to be in place, to be designed and adequately sized to provide a level of storm water control that is equal to or greater than that which would be afforded by on-site practices and there is a legally obligated entity responsible for long-term operation and maintenance of the storm water practice.
4. The Hamblen County Planning Commission and Stormwater Staff finds that meeting the minimum on-site management requirements is not feasible due to the natural or existing physical characteristics of a site.
5. Non-structural practices will be used on the site that will reduce a) the generation of storm water from the site, b) the size and cost of storm water storage, and c) the pollutants generated at the site. These non-structural practices are explained in detail in the current design manual and the amount of credit available for using such practices shall be determined by the Hamblen County Planning Commission and Stormwater Staff.

In instances where one of the conditions above applies, the Hamblen County Planning Commission may grant a waiver from strict compliance with these storm water management provisions, as long as acceptable mitigation measures are provided. However, to be eligible for a variance, the applicant must demonstrate to the satisfaction of the Hamblen County Planning Commission and Stormwater Staff that the variance will not result in the following impacts to downstream waterways:

- Deterioration of existing culverts, bridges, dams, or other structures;
- Degradation of biological functions or habitat;
- Accelerated streambank or streambed erosion or siltation;
- Increased threat of flood damage to public health, life or property.

Furthermore, where compliance with minimum requirements for storm water management is waived, the applicant will satisfy the minimum requirements by meeting one of the mitigation measures selected by the jurisdictional storm water authority. Mitigation measures may include, but are not limited to, the following:

- The purchase and donation of privately owned lands, or the grant of an easement to be dedicated for preservation and/or reforestation. These lands should be located adjacent to the stream corridor in order to provide permanent buffer areas to protect water quality and aquatic habitat,
- The creation of a storm water management facility or other drainage improvements on previously developed properties, public or private, that currently lack storm water management facilities designed and constructed in accordance with the purposes and standards of this resolution,
- Monetary contributions (Fee –in-Lieu) to fund storm water management activities such as research and studies (e.g. regional wetland delineation studies, stream monitoring studies for water quality and macroinvertebrates, stream flow monitoring, threatened and endangered species studies, hydrologic studies, and monitoring of storm water management practices).

4.2 Fee in Lieu of Storm Water Management Practices

Where the Hamblen County Planning Commission waive all or part of the minimum storm water management requirements, or where the waiver is based on the provision of adequate storm water facilities provided downstream of the proposed development, the applicant shall be required to pay a fee in amount as determined by the Hamblen County Planning Commission and Stormwater Staff.

When an applicant obtains a waiver of the required storm water management, the monetary contribution required shall be in accordance with a fee schedule (unless the developer and the storm water authority agree on a greater alternate contribution) established by the Hamblen County Planning Commission and shall be based on the cubic feet of storage required for storm water management of the development in question. All monetary contributions shall be credited to an existing or future appropriate capital improvements or other designated storm water related program project and shall be made by the developer prior to the issuance of any permits for the development.

4.3 Dedication of Land

In lieu of a monetary contribution, an applicant may obtain a waiver of the required storm water management by entering into an agreement with the Hamblen County Planning Commission for the granting of an easement or the dedication of land by the applicant, to be used for the construction of an off-site storm water management facility. The agreement shall be entered into by the applicant and the Hamblen County Planning Commission prior to the recording of plats or, if no recorded plat is required, prior to the issuance of the permits.

Section 5 General Performance Criteria for Storm Water Management

Unless judged by the Hamblen County Planning Commission to be exempt or granted a waiver, the following performance criteria shall be addressed for storm water management at all sites:

- (A) All site designs shall establish storm water management practices to control the peak flow rates of storm water discharge associated with specified design storms seeking to maintain post-construction flow rates to that of pre-development site conditions and reduce the generation of storm water to the maximum extent practical. These practices should utilize pervious areas for storm water treatment and to infiltrate storm water runoff from driveways, sidewalks, rooftops, parking lots, and landscaped areas to the maximum extent practical to provide treatment for both water quality and quantity.

- (B) All storm water runoff generated from new development shall not discharge untreated storm water directly into a jurisdictional wetland or local water body without adequate treatment. Where such discharges are proposed, the impact of the proposal on wetland functional values shall be assessed using a method acceptable to the Hamblen County Planning Commission and Stormwater Staff. In no case shall the impact on functional values be any less than allowed by the Army Corp of Engineers (ACE) or other appropriate federal or state agency responsible for natural resources and/or water quality.

- (C) For new development, structural storm water treatment practices shall be designed to remove a specified percentage of the average annual post development total suspended solids load as found in the Storm Water Design Manual. It is presumed that a storm water treatment practice complies with this performance standard if it is:
- Sized to capture the prescribed water quality volume (WQv),
 - Designed according to the specific performance criteria outlined in the stormwater design manual (Northeast Tennessee Best Management Practices (NE TN BMP)).
 - Constructed properly, and
 - Maintained regularly
- (D) Storm water discharges to critical areas with sensitive resources (i.e., cold water fisheries, shellfish beds, swimming beaches, recharge areas, water supply reservoirs, 303d listed streams, etc.) may be subject to additional performance criteria, or may need to utilize or restrict certain storm water management practices.
- (E) Certain industrial sites and all land development projects disturbing one (1) acre or more (or if part of a larger development) are required to prepare and implement a storm water pollution prevention plan and shall file a notice of intent (NOI) under the provisions of the National Pollutant Discharge Elimination System (NPDES) general permit. The storm water pollution prevention plan requirement applies to both existing and new industrial sites and land development sites disturbing one (1) acre or more.
- (F) Storm water discharges from land uses or activities with higher potential pollutant loadings, known as “hotspots”, may require the use of specific structural storm water treatment practices and pollution prevention practices.
- (G) Prior to design, applicants are required to consult with the Hamblen County Planning Commission and Stormwater Staff to determine if they are subject to additional storm water design requirements.
- (H) The calculations for determining peak flows as found in the Storm water Design Manual shall be used for sizing all storm water management practices.

Section 6

Basic Storm Water Management Design Criteria

6.1 Minimum Control Requirements

All storm water management practices will be designed so that the specific storm criteria (e.g., water quality, channel protection, 2-, 10, and 100-year event) as identified in the current Storm Water Design Manual are met, unless the Hamblen County Planning Commission grants the applicant a waiver or the applicant is exempt from such requirements.

In addition, if hydrologic or topographic conditions warrant greater control than that provided by the minimum control requirements, the Hamblen County Planning Commission and Stormwater Staff reserves the right to impose any and all additional requirements deemed necessary to control the volume, timing, and rate of runoff.

6.2 Site Design Feasibility

Storm Water management practices for a site shall be chosen based on the physical conditions of the site. Among the factors that should be considered include, but are not limited to:

1. Topography
2. Maximum Drainage Area
3. Depth of Water Table
4. Soils
5. Slopes
6. Terrain
7. Head
8. Location of relation to environmentally sensitive features or ultra-urban areas.

Applicants shall consult the Northeast Tennessee Best Management Practices (NE TN BMP) for guidance on the factors that determine site design feasibility when selecting a storm water management practice.

6.3 Conveyance Issues

All storm water management practices shall be designed to convey storm water to allow for the maximum removal of pollutants and reduction in flow velocities. This shall include, but not be limited to:

1. Maximizing of flow paths from inflow points to outflow points
2. Protection of inlet and outfall structures
3. Elimination of erosive storm water flow velocities
4. Providing of underdrain systems, where applicable

The Storm Water Design Manual shall provide detailed guidance on the requirements for conveyance for each of the approved storm water management practices.

6.4 Treatment/Geometry Conditions

All storm water management practices shall be designed to capture and treat storm water runoff according to the specifications outlined in the Storm Water Design Manual. These specifications will designate the water quantity and quality treatment criteria that apply to an approved storm water management practice. Specifically for Hamblen County, the storm water frequency to use for water quantity criteria shall be the 2- and 10-year storms. The 100-year storm shall be able to pass through the proposed BMP for stormwater quantity calculations.

6.5 Maintenance Agreements

All storm water treatment practices shall have an enforcement operation and maintenance agreement to ensure the system functions as designed. This agreement will include any and all maintenance easements required to access and inspect the storm water treatment practices, and to perform routine maintenance as necessary to ensure proper functioning of the storm water treatment practice. In addition, a legally binding covenant specifying the parties responsible for the proper maintenance of all storm water treatment practices shall be secured prior to issuance of any permits for land disturbance activities or a security posted.

6.6 Non-Structural Storm Water Practices

The use of non-structural storm water treatment practices is encouraged in order to minimize the reliance on structural practices. Credit in the form of reductions in the amount of storm water that must be managed can be earned through the use of non-structural practices that reduce the generation of storm water from the site. These non-structural practices are explained in detail in the current design manual and applicants wishing to obtain credit for use of non-structural practices must ensure that these practices are documented and remain unaltered by subsequent property owners.

Section 7

Requirements for Storm Water Management Plan Approval

7.1 Storm Water Management Plan Required for All Developments

No applicant for development will be approved unless it includes a storm water management plan detailing in concept how runoff and associated water quality impacts resulting from the development will be controlled or managed. This plan must be prepared by a registered design professional allowable under State of Tennessee law and must indicate whether storm water will be managed on-site or off-site and, if on-site, the general location and type of practices.

The concept storm water management plan may be referred for comment to all other interested agencies, and any comments must be addressed in a final storm water management plan. This final plan must be signed by a licensed professional engineer (PE), who will verify that the design of all storm water management practices meets the submittal requirements outlined in the Submittal Checklist found in the Storm Water Design Manual. No building, grading, or sediment control permit shall be issued until a satisfactory final storm water management plan, or a waiver thereof, shall have undergone a review and been approved by the Hamblen County Planning Commission and Stormwater Staff after determining that the plan or waiver is consistent with the requirements of this resolution.

7.2 Storm Water Management Concept Plan Requirements

A storm water management concept plan shall be required with all development permit application and will include sufficient information (e.g. maps, hydrologic calculations, etc.) to evaluate the environmental characteristics of the project site, the potential impacts of all propose development of the site, both present and future, on the water resources, and the effectiveness and acceptability of the measures proposed for managing storm water generated at the project site. The intent of this conceptual planning process is to determine the type of storm water management measures necessary for the proposed project and ensure adequate planning for management of storm water runoff from future development. To accomplish this goal the following information shall be included in the concept plan:

1. A map (or maps) indicating the location of existing and proposed buildings, roads, parking areas, utilities, structural storm water management and sediment control facilities. The map(s) will also clearly show proposed land use with tabulation of the percentage of surface area to be adapted to various uses; drainage patterns; location of utilities, roads and easements; the limits of clearing and grading; a written description of the site plan and justification of proposed changes in natural conditions may also be required.

2. Sufficient engineering analysis to show that the proposed storm water management measures are capable of controlling runoff from the site in compliance with this resolution and the specifications of the Storm Water Design Manual.
3. A written or graphic inventory of the natural resources at the site and surrounding area as it exists prior to the commencement of the project and a description of the watershed and its relation to the project site. This description should include a discussion of both upstream and downstream drainage areas including flow patterns and conduit sizes, soil conditions, forest cover, topography, wetlands, and other native vegetative areas on the site. Particular attention should be paid to environmentally sensitive features that provide particular opportunities or constraints for development.
4. Provide required maintenance as specified.
5. The Hamblen County Planning Commission and Stormwater Staff may also require a concept plan to consider the maximum development potential of a site under existing zoning, regardless of whether the applicant presently intends to develop the site to its maximum potential.

For development or redevelopment occurring on a previously developed site, an applicant shall be required to include within the storm water concept plan measures for controlling existing storm water runoff discharges from the site in accordance with the standards of this resolution to the maximum extent practicable.

7.3 Final Storm Water Management Plan Requirements

After review of the storm water management concept plan, and modifications to that plan as deemed necessary by the Hamblen County Planning Commission and Stormwater Staff, a final storm water management plan must be submitted for approval. The final storm water management plan, in addition to the information from the concept plan, shall include all of the information required in the Final Storm Water Management Plan Checklist found in the Storm Water Design Manual. This includes, but is not limited to, the following information.

1. **Contact Information**
The name, address, and telephone number of all persons having legal interest in the property and the tax reference number and parcel number of the property or properties affected.
2. **Topographic Base Map**
An appropriately scaled topographic base map of the site which extends a minimum of one hundred (100) feet beyond the limits of the proposed development and indicates contours at vertical intervals of not more than five (5) feet, existing surface water drainage including streams, ponds, culverts, ditches, and wetlands; current land use

including all existing structures; locations of utilities, roads, and easements; and significant natural and manmade features not otherwise shown. Note: On topographic maps utilizing 10-, 20-, 30-, 40- or 50-scale, it is recommended that two (2) foot contours be shown.

3. Calculations:

Hydrologic and hydraulic design calculations for the pre-development and post development conditions for the design storms specified in this resolution. For Hamblen County, the storm water frequency to use for water quantity criteria shall be the 2- and 10-year storms. The 100-year storm shall be able to pass through the proposed BMP for stormwater quantity calculations. Such calculations shall include

- (i) description of the design storm frequency, intensity and duration,
- (ii) Time of concentration,
- (iii) Soil Curve Numbers or runoff coefficients,
- (iv) Peak runoff rates and total runoff volumes for each watershed area,
- (v) Infiltration rates, where applicable,
- (vi) Culvert capacities,
- (vii) Flow velocities,
- (viii) Data on the increase in rate and volume of runoff for the design storms referenced in the Storm Water Design Manual, and
- (ix) Documentation of sources for all computation methods and field test results.

4. Soils Information:

If a storm water management control measure depends on the hydrologic properties of soils (e.g., infiltration basins), then a soils report shall be submitted. The soils report shall be based on on-site boring logs or soil pit profiles. The number and location of required soil borings or soil pits shall be determined based on what is needed to determine the suitability and distribution of soil types present at the location of the control measure.

5. Maintenance and Repair Plan:

The design and planning of all storm water management facilities shall include detailed maintenance and repair procedures to ensure their continued function. These plans will identify the parts or components of a storm water management facility that need to be maintained and the equipment and skills or training necessary. Provisions for the periodic review and evaluation of the effectiveness of the maintenance program and the need for revisions or additional maintenance procedures shall be included in the plan.

6. Maintenance Easements:

The applicant must ensure access to all storm water treatment practices at the site for the purpose of inspection and repair by securing all the maintenance easements needed on a permanent basis. These easements are to be of adequate size and shown on the plan and shall be recorded on the final subdivision plat or other easement document if not a

subdivision to ensure that they shall remain in effect even with transfer of title to the property.

7. Maintenance Agreement

The applicant must execute an acceptable maintenance agreement binding on all subsequent owners of land served by an on-site storm water management measure in accordance with the specifications of this resolution.

8. Erosion and Sediment Control Plan for Storm Water Management Measures:

The applicant must prepare an erosion and sediment control plan for all construction activities related to implementing any on-site storm water management practices.

9. Other Environmental Permits:

The applicant shall assure that all other applicable environmental permits have been acquired for the site prior to approval of the final storm water design plan.

7.4 Performance Bond/Security

The Hamblen County Planning Commission and Stormwater Staff shall require the submittal of a performance bond or other form of security prior to the issuance of a development permit in order to ensure that the storm water practices are installed by the permit holder as required by the approved storm water management plan. The bond amount is one hundred fifty percent (150%) of the County's approved cost estimate including all erosion and sediment control, stormwater infrastructure, and stormwater control measures at the site. The cost estimate for the performance bond shall include quantities and unit prices for the following items:

1. Stormwater control measures (detention ponds, treatment devices, etc.)
2. Stormwater conveyance systems (pipes, catch basins, channels, etc.)
3. Erosion prevention/sediment control practices (vegetation, sediment basins, inlet protection, etc.)

Section 8 Construction Inspection

8.1 Notice of Construction Commencement

The applicant must notify the Hamblen County Planning Commission and Stormwater Staff at least five (5) working days in advance of the commencement of construction. Random inspection of the storm water management system construction shall be conducted by the staff of the Hamblen County Stormwater Staff. Other regular inspections shall be conducted by a registered design professional allowable under State of Tennessee law or other qualified designee that has been approved by the jurisdiction who has been certified by the State of Tennessee through its Erosion Prevention and Sediment Control Program (Level 1). All inspections shall be documented, and written reports prepared that contain the following information, at a minimum:

1. The name and title of the inspector, time, date and location of the inspection(s);
2. Whether construction is in compliance with the approved storm water management plan;
3. Variation from the approved construction specifications;
4. Any violations that exist must be identified and corrective measures taken listed; and,
5. Note any relevant event or circumstance (i.e., weather conditions, work stoppage, etc.)

When violations are found, the property owner, builder or developer shall either be notified orally at the time of the inspection, or in writing afterwards, of the nature of the violation and the required corrective actions. No additional work shall proceed until any violations are corrected in a timely manner and all work previously completed has received approval by the Hamblen County Planning Commission and Stormwater Staff.

8.2 "As Built" Plans

All applicants are required to submit actual "as-built" plans for any storm water management practices located on-site after final construction is completed. The plan must show the final design specifications for all storm water management facilities and must be certified by a registered design professional allowable under State of Tennessee law. A final inspection by the Hamblen County Planning Commission and Stormwater Staff is required before the release of any performance securities can occur. The security may be partially released at this time but, in no case shall more than fifty percent (50%) of the original amount be released until one (1) year following the final plat approval and field inspections verify that the stabilization requirements are complied with, whichever is longer.

8.3 Landscaping and Stabilization Requirements

Any area of land from which the natural vegetative cover has been either partially or wholly cleared or removed by development activities shall be revegetated within ten (10) working days from the substantial completion of such clearing and construction. The following criteria shall apply to revegetation efforts:

Reseeding must be done with an annual or perennial cover crop accompanied by placement of straw mulch or its equivalent of sufficient coverage to control erosion until such time as the cover crop is established over ninety percent (90%) of the seeded area.

Replanting with native woody and herbaceous vegetation must be accompanied by placement of straw mulch or its equivalent of sufficient coverage to control erosion until the plantings are established and are capable of controlling erosion.

Any area of revegetation must exhibit survival of a minimum of seventy-five percent (75 %) of the cover crop throughout the year immediately following revegetation.

Revegetation must be repeated in successive years until the minimum seventy-five percent (75%) survival for one (1) year is achieved.

Section 9

Maintenance and Repair of Storm Water Facilities

9.1 Maintenance Easement

Prior to the issuance of any permit that has a storm water management facility as one of the requirements of the permit, the applicant or owner of the site must execute a maintenance easement agreement that shall be set out on the recorded plat or other easement document and shall be binding on all subsequent owners of land served by the storm water management facility. The agreement shall provide for access to the facility at reasonable times for periodic inspection by the Hamblen County Planning Commission and Stormwater Staff, or their contractor or agent, and for regular or special assessments of property owners to ensure that the facility is maintained in proper working condition to meet design standards and any other provisions established by this resolution. The easement agreement shall be recorded by the Hamblen County Planning Commission and Stormwater Staff in the Register of Deeds office.

9.2 Maintenance Agreement Covenants

Maintenance of all storm water management facilities shall be ensured through the creation of a formal maintenance agreement covenant that must be approved by the Hamblen County Planning Commission and Stormwater Staff and recorded into the Register of Deeds office prior to final plan approval or a security provided to ensure later recording after permit issued. As part of the covenant, a schedule shall be developed for when and how often maintenance will occur to ensure proper function of the storm water management facility. The covenant shall also include plans for periodic inspections, by qualified individuals, to ensure proper performance of the facility between scheduled cleanouts.

9.3 Requirements for Maintenance Agreement Covenants

All storm water management facilities must undergo, at the minimum, an annual inspection, by a qualified individual, to document maintenance and repair needs and ensure compliance with the requirements of this resolution and accomplishment of its purposes. These needs may include removal of silt, litter and other debris from all catch basins, inlets and drainage pipes, grass cutting and vegetation removal, and necessary replacement of landscaping vegetation. Any maintenance needs found must be addressed in a timely manner, as determined by the Hamblen County Planning Commission and Stormwater Staff, and the inspection and maintenance requirement may be increased as deemed necessary to ensure proper functioning of the storm water management facility.

9.4 Inspection of Storm Water Facilities by the County

Inspection programs may be established on any reasonable basis, including but not limited to: routine inspections; random inspections; inspections based upon complaints or other notice of possible violations; inspection of drainage basins or areas identified as higher than typical sources of sediment or other contaminants or pollutants; inspections of businesses or industries of a type of associated with higher than usual discharges of contaminants or pollutants or with discharges of a type which are more likely than the typical discharge to cause violations of state or federal water or sediment quality standards or the NPDES storm water permit; and joint inspections with other agencies inspecting under environmental or safety laws. Inspections may include but are not limited to: reviewing maintenance and repair records; sampling discharges, surface water, groundwater, and materials or water in drainage control facilities; and evaluating the condition of drainage control facilities and other storm water treatment practices.

9.5 Right-of-Entry for Inspection

When any new drainage control facility is installed on private property, or when any new connection is made between private property and a public drainage control system, or sewers, the property owner shall grant to the Hamblen County Planning Commission and Stormwater Staff the right to enter the property at reasonable times and in a reasonable manner for the purpose of inspection. This includes the right to enter a property when it has a reasonable basis to believe that a violation of this resolution is occurring or has occurred, and to enter when necessary for abatement of a public nuisance or correction of a violation of this resolution.

9.6 Records of Inspection, Installment and Maintenance Activities

Parties responsible for conducting inspection activities and the operation and maintenance of a stormwater management facility shall make records of the installation and of all inspections conducted; maintenance and repairs completed and shall retain the records for at least five (5) years. These records shall be made available to the Hamblen County Planning Commission and Stormwater Staff during their inspection of the facility and at other reasonable times upon request.

9.7 Failure to Maintain Practices

If a responsible party fails or refuses to meet the requirements of the maintenance agreement covenant, the Hamblen County Planning Commission and Stormwater Staff, after reasonable notice, may correct a violation of the design standards or maintenance needs by performing all necessary work to place the facility in proper working condition. In the event that the storm water management facility becomes a danger to public safety or public health, the Hamblen County Planning Commission and Stormwater Staff shall notify the party responsible for maintenance of the storm water management facility in writing. Upon receipt of notice, the responsible party shall have thirty (30) calendar days to effect maintenance and repair of the facility in an approved manner. Failure to meet this requirement subjects the responsible party to the Hamblen County Planning Commission and Stormwater Staff assessing the owner(s) of the facility for the cost of any repair work plus any penalties; and these costs, if not paid in a timely manner, shall be a lien on the property, or prorated against the beneficial users of the property, and may be placed on the tax bill and collected as ordinary taxes by the county.

Section 10 Enforcement and Penalties

10.1 Violations

Any development activity that is commenced or is conducted contrary to this resolution or the Hamblen County Stormwater Enforcement Response Plan may be restrained by injunction or otherwise abated in a manner provided by law.

10.2 Notice of Violation

Per the Hamblen County Stormwater Enforcement Response Plan, when the Hamblen County Planning Commission and Stormwater Staff determines that an activity is not being carried out in accordance with the requirements of this resolution, it shall issue a written notice of violation (NOV) to the owner of the property or other responsible party. The notice of violation shall contain:

1. The name and address of the owner, applicant or other responsible party;
2. The address when available or a description of the building, structure or land upon which the violation is occurring;
3. A statement specifying the nature of the violation;
4. A description of the remedial measures necessary to bring the development activity into compliance with this resolution and a time schedule for the completion of such remedial action;

5. A statement of the penalty or penalties that shall or may be assessed against the person to whom the notice of violation is directed; and
6. A statement that the determination of violation may be appealed to the Board of Zoning Appeals (BZA) by filing a written notice of appeal within fifteen (15) business days of service of notice of violation.

10.3 Stop Work Orders

Persons receiving a NOV involving a stop work order will be required to halt all construction activities. This “stop work order” will be in effect until the Hamblen County Planning Commission and Stormwater Staff confirms that the development activity is in compliance and the violation has been satisfactorily addressed. Failure to address a NOV involving a stop work order in a timely manner can result in civil, criminal, or monetary penalties in accordance with the enforcement measures authorized in this resolution.

10.4 Civil and Criminal Penalties

The Hamblen County Planning Commission and Stormwater Staff are authorized and empowered to enforce the requirements of this resolution in accordance with the procedures set out in Tennessee Code Annotated 68-221-1106 or T.C.A. 5-1-121, the terms of which are incorporated herein by reference. Any person who violates the provisions of this resolution regulating storm water discharges or facilities shall be subject to a civil penalty of not less than fifty dollars (\$50.00) nor more than five thousand dollars (\$5,000.00) per day for each day of violation (per TN Code § 68-221-1106 (2019)). Such person shall be guilty of a separate violation for each day during which the violation occurs or continues.

10.5 Restoration of Lands

Any violator may be required to restore land to its undisturbed condition. In the event that restoration is not undertaken within a reasonable time after notice, the Hamblen County Planning Commission and Stormwater Staff may take necessary corrective action, the cost of such action shall be covered by the posted performance bond/security, when available. Should the amount of the performance bond/security being held by the Planning Commission be insufficient, or not available, the cost shall become a lien upon the property until paid.

10.6 Holds on Occupation Permits

Occupation permits will not be granted until corrections to all storm water practices have been made and accepted by the **Hamblen County Planning Commission and Stormwater Staff** or a security posted.

Section 11 Approvals

11.1 Remedies Not Exclusive

The remedies listed in this resolution are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the authorized enforcement agency to seek cumulative remedies.

11.2 Conflict with Other Regulations

Where standards and management requirements of this resolution are in conflict with other laws, regulations and policies regarding buffer zones, streams, steep slopes, eroding soils, wetlands, floodplains, timber harvesting, agriculture, land disturbance activities, or other environmental protective measures, the more restrictive shall apply.

11.3 Separability

The provisions and sections of this resolution shall be deemed to be separable, and the invalidity of any portion of this resolution shall not affect the validity of the remainder.

11.4 Adoption of Resolution

This resolution shall be in full force and effect thirty (30) days after its final passage and adoption by the Hamblen County Board of Commissioners. All prior resolutions and parts of resolutions in conflict with this resolution are hereby repealed.

WHEREFORE, it is moved by Commissioner and seconded by Commissioners that this Resolution be adopted.

The Chair declared the resolution adopted this _____ day of _____.

RESOLUTION 24-___
**A RESOLUTION TO AMEND THE POST-CONSTRUCTION STORMWATER
RUNOFF REGULATIONS**
HAMBLÉN COUNTY, TENNESSEE
BOARD OF COUNTY COMMISSIONERS
Updated Draft – January 2024 – LH

This page can be deleted after review. It's just notes from previous engineer and Clint addressed most of these.

Original Note to Tina from 2017: ~~Most stormwater management regulations require the following:~~

~~1. Peak (detention)~~

- ~~a. Applies to all projects (except individual single family or two family houses unless part of a larger common development such as a subdivision) of any size~~
- ~~b. The typical requirement is that new developments or redevelopment projects may not damage or otherwise cause harm to downstream properties due to an increase in stormwater runoff doesn't typically state that all properties must provide detention or request a waiver.~~
- ~~c. Usually 2 and 10 year storm events but some local govts have gone up to the 25 yr or 100 yr storm event. Most Counties in NE TN are the 2 and 10 yr storms but must make sure that the 100 year storm flows on or through the project will not damage or flood proposed or existing structures.~~

~~2. Water quality~~

- ~~a. Per MS4 regs, only applies to projects that disturb 1 or more acres of land or is part of a larger common development which would disturb 1 or more acres.~~
- ~~b. Currently the requirement is 80% TSS removal. The new MS4 regs currently in a lawsuit to be heard this winter, requires a change to green infrastructure (infiltration for instance).~~
- ~~c. The TDEC sediment control handbook does not address water quality (or detention). If you don't have a formal BMP manual, then we can reference either the NE TN BMP Manual, the Knoxville manual, or allow the designer to use any TDEC approved manual.~~

~~3. BMP easements, maintenance covenants, and as-builts~~

- ~~a. Most local govts allow a security to be posted in lieu of providing and recording the easements and covenants before a permit is issued.~~
- ~~b. Also they allow a security to be posted for the as-built to be prepared and approved after a CO is issued.~~
- ~~c. During construction, most BMPs are not installed exactly as designed or need to be modified due to unknown site conditions. Sometimes the actual BMP~~

~~type needs to change. If easements and covenants are recorded first, they will most likely need to be changed and re-recorded. Then there are multiple recorded documents which can be confusing and costs more money as well.~~

Resolution adopting regulations to Reduce Pollution by Establishing Control of Post Construction Storm Water Runoff

TRW = Red

TCH = GREEN

Whereas, uncontrolled storm water drainage and discharge have a significant, adverse impact on the health, safety, and general welfare of the residents of Hamblen County and an adverse impact on the natural environment by carrying pollutants into the receiving waters within the community; and

Whereas, Hamblen County is required by federal law, particularly 33 U.S.C 1342(p) and 40 CFR 1.22.26, to obtain a National Pollutant Discharge Elimination System (NPDES) permit through the Tennessee Department of Environment and Conservation (TDEC) to reduce storm water flows and associated pollutants discharged into waterways through Hamblen County's storm water system and drainage ways; and

Whereas, the NPDES permit requires Hamblen County to impose controls on future and existing development necessary to reduce the discharge of pollutants in storm water to the maximum reasonable extent using management practices, control techniques and systems design and engineering methods, and such other provides which are determined to be appropriate for the control of such pollutants; now therefore

Be is resolved by the Board of County Commissioners of Hamblen County, Tennessee that the Resolution for the Control of Post Construction Storm Water Runoff be read as follows:

Resolution for the Control of Post Construction Storm Water Runoff

Table of Contents

Section 1	General Provisions
Section 2	Definitions
Section 3	Permit Procedures and Requirements
Section 4	Waivers
Section 5	General Performance Criteria for Storm Water Management
Section 6	Specific Performance Criteria for Storm Water Treatment Practices
Section 7	Requirements for Storm Water Management Plan Approval
Section 8	Construction Inspection Provisions
Section 9	Maintenance and Repair Requirements
Section 10	Enforcement and Violations

Section 1 General Provisions

1.1 Findings of Fact

It is hereby determined that: Land development projects and other associated construction activities increase impervious cover which alters the hydrologic response of local watersheds and increase storm water runoff rates and volumes, flooding, stream channel erosions, and sediment transport and deposition;

This storm water runoff contributes to increase quantities of water-borne pollutants, and Storm Water runoff, soil erosion and nonpoint source pollution can be controlled and minimized through the regulation of storm water runoff from development sites.

Therefore, the **Hamblen County Planning Commission and ~~Director~~ Stormwater Staff** established this set of water quality and quantity policies applicable to all surface waters to provide reasonable guidance for the regulation of storm water runoff for the purpose of protecting local water resources from degradation. It is determined that the regulation of storm water runoff discharges from land development projects and other construction activities in order to control and minimize increases in storm water runoff rates and volumes, soil erosion, stream channel erosion, and nonpoint source pollution associated with storm water runoff is in the public interest and will prevent threats to public health and safety.

1.2 Purpose

The purpose of this resolution is to establish minimum storm water management requirements and controls to protect and safeguard the general health, safety, and welfare of the public residing in watersheds within this jurisdiction. This resolution seeks to meet that purpose through the following objectives:

- (1) minimize increases in storm water runoff from any development in order to reduce flooding, siltation, increases in stream temperature, and streambank erosion and maintain the integrity of stream channels;
- (2) minimize increases in nonpoint source pollution caused by storm water runoff from development which would otherwise degrade local water quality;
- (3) minimize the total annual volume of surface water runoff which flows from any specific site during and following development to not exceed the pre-development hydrologic regime to the maximum extent practicable; and,
- (4) reduce storm water runoff rates and volumes, soil erosion and nonpoint source pollution, wherever possible, through storm water management controls and to ensure that these management controls are properly maintained and pose no threat to public safety.

1.3 Applicability

This resolution shall be applicable to all subdivision or site plan applications, unless eligible for an exemption or granted a waiver by the **Hamblen County Planning Commission and Stormwater Staff** under the specifications of Section 4 of this resolution. The resolution also applies to land development activities that are smaller than the minimum applicability criteria if such activities are part of a larger common plan of development that meets the following applicability criteria, even though multiple separate and distinct land development activities may take place at different times on different schedules. In addition, all plans may also be reviewed by local, state or federal environment protection officials to ensure that established water quality standards will be maintained during and after development of the site and that post construction runoff levels are consistent with any local and regional watershed plans.

To prevent the adverse impacts of storm water runoff, the **Hamblen County Planning Commission and Stormwater Staff** have developed a set of performance standards that must be met at new development sites. These standards apply to any construction activity disturbing ~~10,000 square feet~~ **one (1) acre** or more of land area **provided they are not part of a larger common development plan**. The following activities may be exempt from these storm water performance criteria:

1. Any logging and agricultural activity which is consistent with an approved soil conservation plan or timber management plan prepared or approved by the Forestry Service Department or other state or federal agency regulating such activity, as applicable.
2. Placement of mobile homes and additions or modifications to existing single family structures that is **not** likely to cause significant runoff problems.
3. Developments that disturb less than ~~10,000 square feet~~ **one (1) acre** of land area provided they are not part of a larger common development plan.
4. Repairs to any storm water treatment practice deemed necessary by **Hamblen County Planning Commission and Stormwater Staff**.
5. Other minor land disturbance activity that will not violate the provisions of this resolution due to the nature and size of the individual activity.

When a site development plan is submitted that qualifies as a redevelopment project as defined in Section 2 of this resolution, decisions on permitting and on-site storm water requirements shall be governed by special storm water sizing criteria found in the current Storm Water Design Manual. This criteria is dependent on the amount of impervious area created by the redevelopment and its impact on water quality. Final authorization of all redevelopment projects will be determined after a review by **Hamblen County Planning Commission and Stormwater Staff**.

1.4 Compatibility with Other Permit and Resolution Requirements

This resolution is not intended to interfere with, abrogate, or annul any other resolution, rule or regulation, statute, or other provision of law. The requirements of this resolution should be considered minimum requirements, and where any provision of this resolution imposes restrictions different from those imposed by any other resolution, rule or regulation, or other provision of law, whichever provisions are more restrictive or impose higher protective standards for human health, or the environment shall be considered to take precedence.

1.5 Severability

If the provisions of any article, section, subsection, paragraph, subdivision or clause of this resolution shall be judged invalid by a court of competent jurisdiction, such order of judgement shall not affect or invalidate the remainder of any article, section, subsection, paragraph, subdivision or clause of this resolution.

1.6 Development of a Storm Water Design Manual

The Hamblen County Planning Commission and Stormwater Staff may furnish additional policy, criteria and information including specifications and standards, for the proper implementation of the requirements of this resolution and may provide such information in the form of a local Storm Water Design Manual. For purposes of this resolution, or until further amended, this manual shall be the latest edition of the Tennessee Erosion and Sediment Control Handbook Northeast Tennessee Best Management Practices (NE TN BMP) as written by the TDEC (herein called the Storm Water Design Manual). **Other methods may be used on a case-by-case basis if requested. Example given: in design of and implementation of specific BMPs, the Tennessee Erosion and Sediment Control Handbook is a commonly utilized as a reference manual.**

Once a local design manual is developed, and adopted, it will include a list of acceptable storm water treatment practices, including the specific design criteria and operation and maintenance requirements for each storm water practice. The manual may be updated and expanded from time to time, at the discretion of the local review authority, based on improvements in engineering, science, monitoring and local maintenance experience. Storm Water treatment practices that are designed and constructed in accordance with the design and sizing criteria of the appropriate Storm Water Design Manual will be presumed to meet the minimum water quality performance standards.

Section 2 Definitions – Edited format but didn't change any definitions. Only added one.

Accelerated Erosion- Erosion caused by development activities that exceeds the natural processes by which the surface of the land is worn away by the action of water, wind, or chemical action.

Applicant- A property owner or agent of a property owner who has filed an application for a storm water management permit.

Building- Any structure, either temporary or permanent, having walls and a roof, designed for a shelter of any person, animal, or property, and occupying more than 120 square feet of area.

Channel- A natural or artificial watercourse with a definite bed and banks that conducts continuously or periodically flowing water.

Dedication- The deliberate appropriation of property by its owner for general public use.

Detention- The temporary storage of storm runoff in a storm water management practice with the goals of controlling peak discharge rates and providing gravity settling of pollutants.

Detention Facility- A detention basin or alternative structure designed for the purpose of temporary storage of ~~stream flow~~ or surface runoff and gradual release of stored water at controlled rates.

Developer- A person who undertakes land disturbance activities.

Drainage Easement- A legal right granted by a landowner to a grantee allowing the use of private land for storm water management purposes.

Erosion and Sediment Control Plan- A plan that is designed to minimize the accelerated erosion and sediment runoff at a site during construction activities.

Fee in Lieu- A payment of money in place of meeting all or part of the storm water performance standards required by this resolution.

Hotspot- An area where land use or activities generate highly contaminated runoff, with concentrations of pollutants in excess of those typically found in storm water.

Hydrologic Soil Group (HSG)- A Natural Resource Conservation Service classification system in which soils are categorized into four runoff potential groups. The groups range from A soils, with

high permeability and little runoff production, to D soils, which have low permeability rates and produce much more runoff.

Impervious Cover- Those surfaces that cannot effectively infiltrate rainfall (e.g., building rooftops, pavement, sidewalks, driveways, etc.)

Industrial Storm Water Permit- A National Pollutant Discharge Elimination System permit issued to a commercial industry or group of industries which regulates the pollutant levels associated with industrial storm water discharges or specifies on-site pollution control strategies.

Infiltration- The process of percolating storm water into the subsoil

Infiltration Facility- Any structure or device designed to infiltrate retained water to the subsurface. These facilities may be above grade or below grade.

Jurisdictional Wetland- An area that is inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support a prevalence of vegetation typically adapted for life in saturated soil conditions, commonly known as hydrophytic vegetation.

Land Disturbance Activity- Any activity which changes the volume or peak flow discharge rate of rainfall runoff from the land surface. This may include the grading, digging, cutting, scraping, or excavating of soil, placement of fill material, paving, construction, substantial removal of vegetation, or any activity which bares soil or rock or involves the diversion or piping of any natural or man-made watercourse.

Landowner- The legal or beneficial owner of land, including those holding the right to purchase or land the land, or any other person holding proprietary rights in the land.

Maintenance Agreement- A legally recorded document that acts as a property deed restriction, and which provides for long-term maintenance of storm water management practices.

Nonpoint Source Pollution- Pollution from any source other than from any discernible, confined, and discrete conveyances, and shall include, but not be limited to, pollutants from agricultural, silvicultural, mining, construction, subsurface disposal, and urban runoff sources.

Offset Fee- Monetary compensation paid to a local government for failure to meet pollutant load reduction targets.

Off-site Facility- A storm water management measure located outside the subject property boundary described in the permit application for land development activity.

On-Site Facility- A storm water management measure located within the subject property boundary described in the permit application for land development activity.

Recharge—The replenishment of underground water reserves. —Do we need to delete this since we deleted other stuff related to recharge? **I agree and recommend deleting.**

Redevelopment- Any construction, alteration or improvement exceeding ~~10,000 square feet~~ **one (1) acre (or if part of a larger development)** in areas where existing land use is high density commercial, industrial, institutional, or multifamily residential. ~~Should we add or part of a larger development????~~

Staff- For the purposes of these regulations, Staff includes the Stormwater Coordinator, office staff, Planning Commissioners (for approval of regulations and issues brought before the board), and the Stormwater Engineer. Not every issue will require the involvement of the Commissioners or the Engineer, but they are still considered Staff.

Stop Work Order- An order issued which requires that all construction activity on a site be stopped.

Storm Water Management- The use of structural or non-structural practices that are designed to reduce storm water runoff pollutant loads, discharge volumes, peak flow discharge rates and detrimental changes in stream temperature that affect water quality and habitat.

Storm Water Retrofit- A storm water management practice designed for an existing development site that previously had either no storm water management practice in place or a practice inadequate to meet the storm water management requirements of the site.

Storm Water Runoff- Flow on the surface of the ground, resulting from precipitation.

Storm Water Treatment Practices (STPs)- Measures, either structural or nonstructural, that are determined to be the most effective, practical means of preventing or reducing point source or nonpoint source pollution inputs to storm water runoff and water bodies.

Water Quality Volume (WQv)- The storage needed to capture and treat 90% of the average annual storm water runoff volume. Numerically (WQv) will vary as a function of long-term rainfall statistical data.

Watercourse- A permanent or intermittent stream or other body of water, either natural or man-made, which gathers or carries surface water.

Section 3 Permit Procedures and Requirements

3.1 Permit Required

No builder, landowner or land developer shall receive any of the building, grading, construction or land development permits required for land disturbance activities without first meeting the requirements of this resolution prior to commencing the proposed activity.

3.2 Application Requirement

Unless specifically excluded by this resolution, any builder, landowner or developer desiring a permit for a land disturbance activity shall submit to the **Hamblen County Planning Commission and Stormwater Staff** a permit application on a form provided for that purpose.

Unless otherwise excepted by this resolution, a permit application must be accompanied by the following in order that the permit application be considered: a storm water management concept plan; a maintenance agreement; and a non-refundable permit review fee.

The storm water management plan shall be prepared, by a qualified individual, and shall meet the requirements of Section 5 of this resolution, the maintenance agreement shall be likewise prepared to meet the requirements of Section 9 of this resolution, and fees shall be those established by the **Hamblen County Planning Commission and Stormwater Staff**.

3.3 Application Review Fees

The fee for review of any land development application shall be ~~based on~~ **half the amount established by The Tennessee Department of Environment and Conservation (TDEC) the amount of land to be disturbed at the site (e.g. number of lots, acreage, square footage, etc.) and the fee structure shall be established by Hamblen County Planning Commission and Stormwater Staff**. All fees shall be made prior to the issuance of any permits for the intended construction or development project.

For one (1) to five (5) acres the cost shall be half the TDEC cost: \$250.00 = \$125.00.

For five (5) acres to twenty (20) acres the cost shall be half the TDEC cost: \$1,000.00 = \$500.00

3.4 Application Procedure

1. Applications for land disturbance activity permits (i.e. construction and development) must be filed with the Hamblen County Planning Commission and Stormwater Staff on any regular business day for review. Development permit applications that require a financial security instrument to be posted will be set by the Hamblen County Planning Commission and then filed with the office.

~~Applications for land disturbance activity permits (i.e. construction and development) must be filed with the Hamblen County Planning Commission and Stormwater Staff on any regular business day for review, except that; development permit applications that require a financial~~

~~security instrument to be posted with the Planning Commission must be filed fifteen (15) business days prior to the next scheduled planning commission meeting. The security amount is set by the planning commission board and then filed with the office.~~

2. A copy of the development permit application shall be forwarded to the **Hamblen County Planning Commission** for review and approval at their next meeting. Construction permit applications that do not require a financial security instrument to be posted may be reviewed and approved by the **Stormwater Staff**.

3. Construction permit applications submitted for review and approval by the **Stormwater Coordinator** shall be completed and be accompanied by the required fee. Once approved by the **Stormwater Coordinator and/or Staff** all appropriate permits may then be issued.

4. Development permit applications submitted for review and approval by the **Planning Commission** shall include the following items: ~~twelve (12)~~ **three (3) hard copies and one digital copy** of the storm water management concept plan, ~~twelve (12)~~ **three (3) hard copies and one digital copy** of the maintenance agreement, ~~twelve (12)~~ **three (3) hard copies and one digital copy** of an acceptable cost estimate for the installation of all proposed storm water treatment practices, and be accompanied by any required applicable fees.

5. **The applicant must attend the Planning Commission meeting for which their application (or other request) is scheduled. At this Planning Commission meeting, the Planning Commission shall review and determine if the request is approved or disapproved.**

~~after receipt of a complete development permit application, including all documents as required by this resolution, the Hamblen County Planning Commission and Stormwater Staff shall review and inform the applicant whether the application, plan, maintenance agreement and cost estimate are approved or disapproved. The applicant must attend the meeting????~~

6. If the development permit application, storm water management plan, maintenance agreement or installation cost estimate are disapproved, the applicant may revise the management plan, agreement or estimate. If additional information is submitted, the **Hamblen County Planning Commission and/or the Stormwater Staff** shall review the additional information and inform the applicant that the plan, maintenance agreement or estimate are either approved or disapproved.

~~7. If the development permit application, final storm water management plan, maintenance agreement and cost estimate are approved by the Hamblen County Planning Commission and Stormwater Staff; all appropriate land disturbance activity permits may then be issued after the financial security instrument is posted. Is this in conflict with paragraph (1)~~
Correct with updating #1

3.5 Permit Duration

Permits issued under this section shall be valid from the date of approval of the as-built drawing.

~~issuance~~ through the date the **Hamblen County Planning Commission and Stormwater Staff** notifies the permit holder that all storm water management practices have passed the final

inspection, including permanent stabilization of the site, as required under permit condition. When the as-built drawing is reviewed and approved. Does it need to be worded differently. I'm not following this section.....3.5 Permit Duration. Please clarify what permit duration we're talking about here.

Section 4 Waivers to Storm Water Management Requirements

I don't think this section is necessary – see page 36 – 37 (4.2.5.3) of the NPDES Permit. If this is true, delete all of section 4.

4.1 Waivers for Providing Storm Water Management

(Only include IF required): This section of the permit is required for Hamblen County to be in compliance with the State of Tennessee Department of Environment and Conservation. While it is not standard practice for the Hamblen County Stormwater Department to utilize Fees in Lieu of Stormwater Management Practices, the option is available for those who request it.

Every applicant shall provide for storm water management as required by this resolution, unless a written request is filed to waive this requirement. Requests to waive the storm water management plan requirements shall be submitted to the **Hamblen County Planning Commission and Stormwater Staff** for approval.

The minimum requirements for storm water management may be waived in whole or in part upon written request of the applicant, provided that at least one of the following conditions applies:

1. It can be demonstrated that the proposed development is not likely to impair attainment of the objectives of this resolution.
2. Alternative minimum requirements for on-site management of storm water discharges have been established in a storm water management plan that has been approved by the **Hamblen County Planning Commission and Stormwater Staff** and the implementation of the plan is required by local resolution.
3. Provisions are made to manage storm water by an off-site facility. The off-site facility is required to be in place, to be designed and adequately sized to provide a level of storm water control that is equal to or greater than that which would be afforded by on-site practices and there is a legally obligated entity responsible for long-term operation and maintenance of the storm water practice.
4. **The Hamblen County Planning Commission and Stormwater Staff** finds that meeting the minimum on-site management requirements is not feasible due to the natural or existing physical characteristics of a site.
5. Non-structural practices will be used on the site that will reduce a) the generation of storm water from the site, b) the size and cost of storm water storage, and c) the pollutants generated at the site. These non-structural practices are explained in detail in

the current design manual and the amount of credit available for using such practices shall be determined by the **Hamblen County Planning Commission and Stormwater Staff**.

In instances where one of the conditions above applies, the **Hamblen County Planning Commission and Stormwater Staff** may grant a waiver from strict compliance with these storm water management provisions, as long as acceptable mitigation measures are provided. However, to be eligible for a variance, the applicant must demonstrate to the satisfaction of the **Hamblen County Planning Commission and Stormwater Staff** that the variance will not result in the following impacts to downstream waterways:

Deterioration of existing culverts, bridges, dams, or other structures;
Degradation of biological functions or habitat;
Accelerated streambank or streambed erosion or siltation;
Increased threat of flood damage to public health, life or property.

Furthermore, where compliance with minimum requirements for storm water management is waived, the applicant will satisfy the minimum requirements by meeting one of the mitigation measures selected by the jurisdictional storm water authority. Mitigation measures may include, but are not limited to, the following:

- The purchase and donation of privately owned lands, or the grant of an easement to be dedicated for preservation and/or reforestation. These lands should be located adjacent to the stream corridor in order to provide permanent buffer areas to protect water quality and aquatic habitat,
- The creation of a storm water management facility or other drainage improvements on previously developed properties, public or private, that currently lack storm water management facilities designed and constructed in accordance with the purposes and standards of this resolution,
- Monetary contributions (Fee –in-Lieu) to fund storm water management activities such as research and studies (e.g. regional wetland delineation studies, stream monitoring studies for water quality and macroinvertebrates, stream flow monitoring, threatened and endangered species studies, hydrologic studies, and monitoring of storm water management practices).

4.2 Fee in Lieu of Storm Water Management Practices

Where the **Hamblen County Planning Commission and Stormwater Staff** waive all or part of the minimum storm water management requirements, or where the waiver is based on the provision of adequate storm water facilities provided downstream of the proposed development, the

applicant shall be required to pay a fee in amount as determined by the **Hamblen County Planning Commission and Stormwater Staff**.

When an applicant obtains a waiver of the required storm water management, the monetary contribution required shall be in accordance with a fee schedule (unless the developer and the storm water authority agree on a greater alternate contribution) established by the **Hamblen County Planning Commission and Stormwater Staff** and shall be based on the cubic feet of storage required for storm water management of the development in question. All of the monetary contributions shall be credited to an existing or future appropriate capital improvements or other designated storm water related program project and shall be made by the developer prior to the issuance of any permits for the development.

4.3 Dedication of Land

In lieu of a monetary contribution, an applicant may obtain a waiver of the required storm water management by entering into an agreement with the **Hamblen County Planning Commission and Stormwater Staff** for the granting of an easement or the dedication of land by the applicant, to be used for the construction of an off-site storm water management facility. The agreement shall be entered into by the applicant and the **Hamblen County Planning Commission and Stormwater Staff** prior to the recording of plats or, if no recorded plat is required, prior to the issuance of the permits.

Section 5 General Performance Criteria for Storm Water Management

Unless judged by the **Hamblen County Planning Commission and Stormwater Staff** to be exempt or granted a waiver, the following performance criteria shall be addressed for storm water management at all sites:

- (A) All site designs shall establish storm water management practices to control the peak flow rates of storm water discharge associated with specified design storms seeking to maintain post-construction flow rates to that of pre-development site conditions and reduce the generation of storm water to the maximum extent practical. These practices should utilize pervious areas for storm water treatment and to infiltrate storm water runoff from driveways, sidewalks, rooftops, parking lots, and landscaped areas to the maximum extent practical to provide treatment for both water quality and quantity.
- (B) All storm water runoff generated from new development shall not discharge untreated storm water directly into a jurisdictional wetland or local water body without adequate treatment. Where such discharges are proposed, the impact of the proposal on wetland functional values shall be assessed using a method acceptable to the **Hamblen County Planning Commission and Stormwater Staff**. In no case shall the impact on functional values be any less than allowed by the Army Corp of Engineers (ACE) or other appropriate federal or state agency responsible for natural resources and/or water quality.

- ~~(C) Annual groundwater recharge rates shall be maintained, by promoting infiltration through the use of structural and non-structural methods. At a minimum, annual recharge from the post development site shall mimic the annual recharge from pre-development site conditions.~~
- (D) For new development, structural storm water treatment practices shall be designed to remove a specified percentage of the average annual post development total suspended solids load as found in the Storm Water Design Manual. It is presumed that a storm water treatment practice complies with this performance standard if it is:
- Sized to capture the prescribed water quality volume (WQv),
 - Designed according to the specific performance criteria outlined in the **local???** storm water design manual, **Should this be Northeast Manual???** (Yes...this should read “outlined in the stormwater design manual (**Northeast Tennessee Best Management Practices (NE TN BMP)**)).
 - Constructed properly, and
 - Maintained regularly
- (E) Storm water discharges to critical areas with sensitive resources (i.e., cold water fisheries, shellfish beds, swimming beaches, recharge areas, water supply reservoirs, 303d listed streams, etc.) may be subject to additional performance criteria, or may need to utilize or restrict certain storm water management practices.
- (F) Certain industrial sites and all land development projects disturbing one (1) acre or more (**or if part of a larger development**) are required to prepare and implement a storm water pollution prevention plan and shall file a notice of intent (NOI) under the provisions of the National Pollutant Discharge Elimination System (NPDES) general permit. The storm water pollution prevention plan requirement applies to both existing and new industrial sites and land development sites disturbing one (1) acre or more.
- (G) Storm water discharges from land uses or activities with higher potential pollutant loadings, known as “hotspots”, may require the use of specific structural storm water treatment practices and pollution prevention practices.
- (H) Prior to design, applicants are required to consult with the **Hamblen County Planning Commission and Stormwater Staff** to determine if they are subject to additional storm water design requirements.
- (I) The calculations for determining peak flows as found in the Storm water Design Manual shall be used for sizing all storm water management practices.

Section 6 Basic Storm Water Management Design Criteria

6.1 Minimum Control Requirements

All storm water management practices will be designed so that the specific storm criteria ~~storm frequency storage volumes~~ (e.g., ~~recharge~~, water quality, channel protection, 2-, 10-, ~~25-~~ and 100-year event) as identified in the current Storm Water Design Manual are met, unless the **Hamblen County Planning Commission and Stormwater Staff** grants the applicant a waiver or the applicant is exempt from such requirements.

In addition, if hydrologic or topographic conditions warrant greater control than that provided by the minimum control requirements, the **Hamblen County Planning Commission and Stormwater Staff** reserves the right to impose any and all additional requirements deemed necessary to control the volume, timing, and rate of runoff.

6.2 Site Design Feasibility

Storm Water management practices for a site shall be chosen based on the physical conditions of the site. Among the factors that should be considered include, but are not limited to:

1. Topography
2. Maximum Drainage Area
3. Depth of Water Table
4. Soils
5. Slopes
6. Terrain
7. Head
8. Location of relation to environmentally sensitive features or ultra-urban areas.

Applicants shall consult the ~~Storm Water Design Manual~~ **NE TN BMP correct, add full name, Northeast Tennessee Best Management Practices (NE TN BMP)** for guidance on the factors that determine site design feasibility when selecting a storm water management practice. [This can be accessed via the Stormwater website.](#)

6.3 Conveyance Issues

All storm water management practices shall be designed to convey storm water to allow for the maximum removal of pollutants and reduction in flow velocities. This shall include, but not be limited to:

1. Maximizing of flow paths from inflow points to outflow points
2. Protection of inlet and outfall structures
3. Elimination of erosive storm water flow velocities
4. Providing of underdrain systems, where applicable

The Storm Water Design Manual shall provide detailed guidance on the requirements for conveyance for each of the approved storm water management practices.

~~6.4 Pretreatment Requirements~~

~~Every storm water treatment practice shall have an acceptable form of water quality pretreatment, in accordance with the pretreatment requirements found in the current Storm Water Design Manual. Certain storm water treatment practices, as specified in the Storm Water Design Manual, are prohibited even with pretreatment in the following circumstances:~~

- ~~A. Storm water is generated from highly contaminated source areas known as "hotspots"~~
- ~~B. Storm water is carried in a conveyance system that also carries contaminated, non-storm water discharges.~~
- ~~C. Storm water is being managed in a designated groundwater recharge areas.~~
- ~~D. Certain geologic conditions exist (e.g., karst) that prohibit the proper pretreatment of storm water.~~

6.4 Treatment/Geometry Conditions

All storm water management practices shall be designed to capture and treat storm water runoff according to the specifications outlined in the Storm Water Design Manual. These specifications will designate the water quantity and quality treatment criteria that apply to an approved storm water management practice. **Specifically for Hamblen County, the storm water frequency to use for water quantity criterial shall be the 2- and 10-year storms. The 100-year storm shall be able to pass through the proposed BMP for stormwater quantity calculations.**

~~6.6 Landscaping Plans Required~~

~~All storm water management practices must have a landscaping plan detailing both the vegetation to be in the practice and how and who will manage and maintain this vegetation. This plan must be prepared by a registered design professional allowable under State of Tennessee law landscape architect or soil conservation district.~~

6.5 Maintenance Agreements

All storm water treatment practices shall have an enforcement operation and maintenance agreement to ensure the system functions as designed. This agreement will include any and all maintenance easements required to access and inspect the storm water treatment practices, and to perform routine maintenance as necessary to ensure proper functioning of the storm water treatment practice. In addition, a legally binding covenant specifying the parties responsible for the proper maintenance of all storm water treatment practices shall be secured prior to issuance of any permits for land disturbance activities **or a security posted.**

6.6 Non-Structural Storm Water Practices

The use of non-structural storm water treatment practices is encouraged in order to minimize the reliance on structural practices. Credit in the form of reductions in the amount of storm water that must be managed can be earned through the use of non-structural practices that reduce the generation of storm water from the site. These non-structural practices are explained in detail in the current design manual and applicants wishing to obtain credit for use of non-structural practices must ensure that these practices are documented and remain unaltered by subsequent property owners.

Section 7 Requirements for Storm Water Management Plan Approval

7.1 Storm Water Management Plan Required for All Developments

No applicant for development will be approved unless it includes a storm water management plan detailing in concept how runoff and associated water quality impacts resulting from the development will be controlled or managed. This plan must be prepared by a registered design professional allowable under State of Tennessee law ~~an individual approved by the Hamblen County Planning Commission and Stormwater Staff~~ and must indicate whether storm water will be managed on-site or off-site and, if on-site, the general location and type of practices.

The concept storm water management plan may be referred for comment to all other interested agencies, and any comments must be addressed in a final storm water management plan. This final plan must be signed by a licensed professional engineer (PE), who will verify that the design of all storm water management practices meets the submittal requirements outlined in the Submittal Checklist found in the Storm Water Design Manual. No building, grading, or sediment control permit shall be issued until a satisfactory final storm water management plan, or a waiver thereof, shall have undergone a review and been approved by the **Hamblen County Planning Commission and Stormwater Staff** after determining that the plan or waiver is consistent with the requirements of this resolution.

7.2 Storm Water Management Concept Plan Requirements

A storm water management concept plan shall be required with all development permit application and will include sufficient information (e.g. maps, hydrologic calculations, etc.) to evaluate the environmental characteristics of the project site, the potential impacts of all propose development of the site, both present and future, on the water resources, and the effectiveness and acceptability of the measures proposed for managing storm water generated at the project site. The intent of this conceptual planning process is to determine the type of storm water management measures necessary for the proposed project and ensure adequate planning for management of storm water runoff from future development. To accomplish this goal the following information shall be included in the concept plan:

1. A map (or maps) indicating the location of existing and proposed buildings, roads, parking areas, utilities, structural storm water management and sediment control facilities. The map(s) will also clearly show proposed land use with tabulation of the percentage of surface area to be adapted to various uses; drainage patterns; location of utilities, roads and easements; the limits of clearing and grading; a written description of the site plan and justification of proposed changes in natural conditions may also be required.
2. Sufficient engineering analysis to show that the proposed storm water management measures are capable of controlling runoff from the site in compliance with this resolution and the specifications of the Storm Water Design Manual.
3. A written or graphic inventory of the natural resources at the site and surrounding area as it exists prior to the commencement of the project and a description of the watershed and its relation to the project site. This description should include a discussion of both upstream and downstream drainage areas including flow patterns and conduit sizes, soil conditions, forest cover, topography, wetlands, and other native vegetative areas on the site. Particular attention should be paid to environmentally sensitive features that provide particular opportunities or constraints for development.
- ~~4. A written description of the required maintenance burden for any proposed storm water management facility. Provide required maintenance as specified.~~
5. **The Hamblen County Planning Commission and Stormwater Staff** may also require a concept plan to consider the maximum development potential of a site under existing zoning, regardless of whether the applicant presently intends to develop the site to its maximum potential.

For development or redevelopment occurring on a previously developed site, an applicant shall be required to include within the storm water concept plan measures for controlling existing storm water runoff discharges from the site in accordance with the standards of this resolution to the maximum extent practicable.

7.3 Final Storm Water Management Plan Requirements

After review of the storm water management concept plan, and modifications to that plan as deemed necessary by the **Hamblen County Planning Commission and Stormwater Staff**, a final storm water management plan must be submitted for approval. The final storm water management plan, in addition to the information from the concept plan, shall include all of the information required in the Final Storm Water Management Plan Checklist found in the Storm Water Design Manual. This includes, **but is not limited to**, the following information.

1. Contact Information
The name, address, and telephone number of all persons having legal interest in the property and the tax reference number and parcel number of the property or properties affected.
2. Topographic Base Map

A 1"=200' An appropriately scaled topographic base map of the site which extends a minimum of ~~two hundred fifty (250)~~ one hundred (100) feet beyond the limits of the proposed development and indicates contours at vertical intervals of not more than ~~two (2)~~ five (5) feet, existing surface water drainage including streams, ponds, culverts, ditches, and wetlands; current land use including all existing structures; locations of utilities, roads, and easements; and significant natural and manmade features not otherwise shown. Note: On topographic maps utilizing 10-, 20-, 30-, 40- or 50-scale, it is recommended that two (2) foot contours be shown.

3. Calculations:

Hydrologic and hydraulic design calculations for the pre-development and post development conditions for the design storms specified in this resolution. For Hamblen County, the storm water frequency to use for water quantity criteria shall be the 2- and 10-year storms. The 100-year storm shall be able to pass through the proposed BMP for stormwater quantity calculations. Such calculations shall include (i) description of the design storm frequency, intensity and duration, (ii) time of concentration, (iii) Soil Curve Numbers or runoff coefficients, (iv) peak runoff rates and total runoff volumes for each watershed area, (v) infiltration rates, where applicable, (vi) culvert capacities, (vii) flow velocities, (viii) data on the increase in rate and volume of runoff for the design storms referenced in the Storm Water Design Manual, and (ix) documentation of sources for all computation methods and field test results.

4. Soils Information:

If a storm water management control measure depends on the hydrologic properties of soils (e.g., infiltration basins), then a soils report shall be submitted. The soils report shall be based on on-site boring logs or soil pit profiles. The number and location of required soil borings or soil pits shall be determined based on what is needed to determine the suitability and distribution of soil types present at the location of the control measure.

5. Maintenance and Repair Plan:

The design and planning of all storm water management facilities shall include detailed maintenance and repair procedures to ensure their continued function. These plans will identify the parts or components of a storm water management facility that need to be maintained and the equipment and skills or training necessary. Provisions for the periodic review and evaluation of the effectiveness of the maintenance program and the need for revisions or additional maintenance procedures shall be included in the plan.

~~6. Landscaping plan:~~

~~The applicant must present a detailed plan for management of vegetation at the site after construction is finished, including who will be responsible for the maintenance of vegetation at the site and what practices will be employed to ensure that adequate vegetative cover is preserved. This plan must be prepared by a registered design professional allowable under State of Tennessee law landscape architect or by the soil conservation district.~~

7. Maintenance Easements:

The applicant must ensure access to all storm water treatment practices at the site for the purpose of inspection and repair by securing all the maintenance easements needed on a permanent basis. These easements are to be of adequate size and shown on the plan and shall be recorded on the final subdivision plat or other easement document if not a subdivision to ensure that they shall remain in effect even with transfer of title to the property.

8. Maintenance Agreement

The applicant must execute an acceptable maintenance agreement binding on all subsequent owners of land served by an on-site storm water management measure in accordance with the specifications of this resolution.

9. Erosion and Sediment Control Plan for Storm Water Management Measures:

The applicant must prepare an erosion and sediment control plan for all construction activities related to implementing any on-site storm water management practices.

10. Other Environmental Permits:

The applicant shall assure that all other applicable environmental permits have been acquired for the site prior to approval of the final storm water design plan.

7.4 Performance Bond/Security

The Hamblen County Planning Commission and Stormwater Staff shall require the submittal of a performance bond or other form of security prior to the issuance of a development permit in order to ensure that the storm water practices are installed by the permit holder as required by the approved storm water management plan. The bond amount is one hundred fifty percent (150%) of the County's approved cost estimate including all erosion and sediment control, stormwater infrastructure, and stormwater control measures at the site. The cost estimate for the performance bond shall include quantities and unit prices for the following items:

1. Stormwater control measures (detention ponds, treatment devices, etc.)
2. Stormwater conveyance systems (pipes, catch basins, channels, etc.)
3. Erosion prevention/sediment control practices (vegetation, sediment basins, inlet protection, etc.)

Unit prices shall be obtained from the following source:

<https://cms1files.revize.com/morristown/Stormwater/Surety%20Cost%20Estimate.pdf>

(This will be a link to our website, but I'm putting the city's just for reference and easy access).

~~The amount of the installation performance bond/security shall be the total estimated construction cost of the storm water management practices approved under the final permit application, plus fifty percent (50%). The performance bond/security shall contain forfeiture provisions for failure to complete work specified in the storm water management plan.~~

~~Unless specified otherwise the installation performance bond/security shall be held for a minimum of one (1) year following the final subdivision plat approval before being considered for release in full. Upon submission of "as-built" plans and written certification by a registered professional engineer that the storm water practice has been installed in accordance with the approved plan, and other applicable provisions of this resolution, the site shall be inspected for compliance. The Hamblen County Planning Commission and Stormwater Staff, after receipt of the "as-built" plans, will make an inspection of the storm water practices to ensure that it is in compliance with the approved plan and the provisions of this resolution. After this inspection is approved the performance bond/security shall continue to be held to ensure that maintenance and repairs of the storm water practices are insured for one (1) year following the final plat approval or until the site is permanently stabilized, whichever is longer. Provisions for a partial pro-rated release of the performance bond/security based on the completion of various development stages may be done at the discretion of the Hamblen County Planning Commission and Stormwater Staff. However, in no case shall more than one-half (1/2) of the face amount of the original performance bond/security be released until one (1) year after final plat approval or until subsequent field inspections verify that compliance with permanent stabilization requirements of the site have been achieved, whichever is longer.~~

Section 8 Construction Inspections

8.1 Notice of Construction Commencement

The applicant must notify the **Hamblen County Planning Commission and Stormwater Staff** at least five (5) working days in advance of the commencement of construction. Random inspection of the storm water management system construction shall be conducted by the staff of the **Hamblen County Stormwater Staff**. Other regular inspections shall be conducted by a **registered design professional allowable under State of Tennessee law** ~~certified professional engineer~~ or other qualified designee that has been approved by the jurisdiction who has been certified by the State of Tennessee through its Erosion Prevention and Sediment Control Program (Level 1). All inspections shall be documented, and written reports prepared that contain the following information, at a minimum:

1. The name and title of the inspector, time, date and location of the inspection(s);
2. Whether construction is in compliance with the approved storm water management plan;
3. Variation from the approved construction specifications;
4. Any violations that exist must be identified and corrective measures taken listed; and,
5. Note any relevant event or circumstance (i.e., weather conditions, work stoppage, etc.)

When violations are found, the property owner, builder or developer shall either be notified orally at the time of the inspection, or in writing afterwards, of the nature of the violation and the required corrective actions. No additional work shall proceed until any violations are corrected in a timely manner and all work previously completed has received approval by the **Hamblen County Planning Commission and Stormwater Staff**.

8.2 "As Built" Plans

All applicants are required to submit actual "as-built" plans for any storm water management practices located on-site after final construction is completed. The plan must show the final design specifications for all storm water management facilities and must be certified by a **registered design professional allowable under State of Tennessee law** ~~a professional engineer~~. A final inspection by the **Hamblen County Planning Commission and Stormwater Staff** is required before the release of any performance securities can occur. The security may be partially released at this time but, in no case shall more than fifty percent (50%) of the original amount be released until one (1) year following the final plat approval and field inspections verify that the stabilization requirements are complied with, whichever is longer.

8.3 Landscaping and Stabilization Requirements

Any area of land from which the natural vegetative cover has been either partially or wholly cleared or removed by development activities shall be revegetated within ten (10) working days from the substantial completion of such clearing and construction. The following criteria shall apply to revegetation efforts:

Reseeding must be done with an annual or perennial cover crop accompanied by placement of straw mulch or its equivalent of sufficient coverage to control erosion until such time as the cover crop is established over ninety percent (90%) of the seeded area.

Replanting with native woody and herbaceous vegetation must be accompanied by placement of straw mulch or its equivalent of sufficient coverage to control erosion until the plantings are established and are capable of controlling erosion.

Any area of revegetation must exhibit survival of a minimum of seventy-five percent (75 %) of the cover crop throughout the year immediately following revegetation.

Revegetation must be repeated in successive years until the minimum seventy-five percent (75%) survival for one (1) year is achieved.

~~In addition to the above requirements, a landscaping plan must be submitted with the final design describing the vegetative stabilization and management techniques to be used at a site after construction is completed. This plan will explain not only how the site will be stabilized after construction, but who will be responsible for the maintenance of vegetation at the site and what practices will be employed to ensure that adequate vegetative cover is preserved. This plan must be prepared by a registered design professional allowable under State of Tennessee law landscape architect or by the soil conservation district, and must be approved prior to receiving a permit.~~

Section 9 Maintenance and Repair of Storm Water Facilities

9.1 Maintenance Easement

Prior to the issuance of any permit that has a storm water management facility as one of the requirements of the permit, the applicant or owner of the site must execute a maintenance easement agreement that shall be set out on the recorded plat or other easement document and shall be binding on all subsequent owners of land served by the storm water management facility. The agreement shall provide for access to the facility at reasonable times for periodic inspection by the **Hamblen County Planning Commission and Stormwater Staff**, or their contractor or agent, and for regular or special assessments of property owners to ensure that the facility is maintained in proper working condition to meet design standards and any other provisions established by this resolution. The easement agreement shall be recorded by the **Hamblen County Planning Commission and Stormwater Staff** in the ~~land records office~~ [Register of Deeds office](#).

9.2 Maintenance Agreement Covenants

Maintenance of all storm water management facilities shall be ensured through the creation of a formal maintenance agreement covenant that must be approved by the **Hamblen County Planning Commission and Stormwater Staff** and recorded into the ~~land record~~ [Register of](#)

Deeds office prior to final plan approval or a security provided to ensure later recording after permit issued. As part of the covenant, a schedule shall be developed for when and how often maintenance will occur to ensure proper function of the storm water management facility. The covenant shall also include plans for periodic inspections, by qualified individuals, to ensure proper performance of the facility between scheduled cleanouts.

~~The Hamblen County Planning Commission and Stormwater Staff, in lieu of a maintenance agreement covenant, may accept dedication of any existing or future storm water management facility for maintenance, provided such facility meets all the requirements of this resolution and includes adequate and perpetual access and sufficient area, by easement or otherwise, for inspection and regular maintenance.~~

9.3 Requirements for Maintenance Agreement Covenants

All storm water management facilities must undergo, at the minimum, an annual inspection, by a qualified individual, to document maintenance and repair needs and ensure compliance with the requirements of this resolution and accomplishment of its purposes. These needs may include removal of silt, litter and other debris from all catch basins, inlets and drainage pipes, grass cutting and vegetation removal, and necessary replacement of landscaping vegetation. Any maintenance needs found must be addressed in a timely manner, as determined by the **Hamblen County Planning Commission and Stormwater Staff**, and the inspection and maintenance requirement may be increased as deemed necessary to ensure proper functioning of the storm water management facility.

9.4 Inspection of Storm Water Facilities by the County

Inspection programs may be established on any reasonable basis, including but not limited to: routine inspections; random inspections; inspections based upon complaints or other notice of possible violations; inspection of drainage basins or areas identified as higher than typical sources of sediment or other contaminants or pollutants; inspections of businesses or industries of a type of associated with higher than usual discharges of contaminants or pollutants or with discharges of a type which are more likely than the typical discharge to cause violations of state or federal water or sediment quality standards or the NPDES storm water permit; and joint inspections with other agencies inspecting under environmental or safety laws. Inspections may include but are not limited to: reviewing maintenance and repair records; sampling discharges, surface water, groundwater, and materials or water in drainage control facilities; and evaluating the condition of drainage control facilities and other storm water treatment practices.

9.5 Right-of-Entry for Inspection

When any new drainage control facility is installed on private property, or when any new connection is made between private property and a public drainage control system, or sewers, the property owner shall grant to the **Hamblen County Planning Commission and Stormwater Staff** the right to enter the property at reasonable times and in a reasonable manner for the purpose of inspection. This includes the right to enter a property when it has a reasonable basis

to believe that a violation of this resolution is occurring or has occurred, and to enter when necessary for abatement of a public nuisance or correction of a violation of this resolution.

9.6 Records of Inspection, Installment and Maintenance Activities

Parties responsible for conducting inspection activities and the operation and maintenance of a stormwater management facility shall make records of the installation and of all inspections conducted; maintenance and repairs completed and shall retain the records for at least five (5) years. These records shall be made available to the **Hamblen County Planning Commission and Stormwater Staff** during their inspection of the facility and at other reasonable times upon request.

9.7 Failure to Maintain Practices

If a responsible party fails or refuses to meet the requirements of the maintenance agreement covenant, the **Hamblen County Planning Commission and Stormwater Staff**, after reasonable notice, may correct a violation of the design standards or maintenance needs by performing all necessary work to place the facility in proper working condition. In the event that the storm water management facility becomes a danger to public safety or public health, the **Hamblen County Planning Commission and Stormwater Staff** shall notify the party responsible for maintenance of the storm water management facility in writing. Upon receipt of notice, the responsible party shall have thirty (30) calendar days to effect maintenance and repair of the facility in an approved manner. Failure to meet this requirement subjects the responsible party to the **Hamblen County Planning Commission and Stormwater Staff** assessing the owner(s) of the facility for the cost of any repair work plus any penalties; and these costs, if not paid in a timely manner, shall be a lien on the property, or prorated against the beneficial users of the property, and may be placed on the tax bill and collected as ordinary taxes by the county.

Section 10 Enforcement and Penalties

10.1 Violations

Any development activity that is commenced or is conducted contrary to this resolution [or the Hamblen County Stormwater Enforcement Response Plan](#) may be restrained by injunction or otherwise abated in a manner provided by law.

10.2 Notice of Violation

[Per the Hamblen County Stormwater Enforcement Response Plan](#), when the **Hamblen County Planning Commission and Stormwater Staff** determines that an activity is not being carried out in accordance with the requirements of this resolution, it shall issue a written notice of violation (NOV) to the owner of the property or other responsible party. The notice of violation shall contain:

1. The name and address of the owner, applicant or other responsible party;

2. The address when available or a description of the building, structure or land upon which the violation is occurring;
3. A statement specifying the nature of the violation;
4. A description of the remedial measures necessary to bring the development activity into compliance with this resolution and a time schedule for the completion of such remedial action;
5. A statement of the penalty or penalties that shall or may be assessed against the person to whom the notice of violation is directed; and
6. A statement that the determination of violation may be appealed to the **Board of Zoning Appeals (BZA)** by filing a written notice of appeal within fifteen (15) business days of service of notice of violation.

10.3 Stop Work Orders

Persons receiving a NOV involving a stop work order will be required to halt all construction activities. This “stop work order” will be in effect until the **Hamblen County Planning Commission and Stormwater Staff** confirms that the development activity is in compliance and the violation has been satisfactorily addressed. Failure to address a NOV involving a stop work order in a timely manner can result in civil, criminal, or monetary penalties in accordance with the enforcement measures authorized in this resolution.

10.4 Civil and Criminal Penalties

The Hamblen County Planning Commission and Stormwater Staff are authorized and empowered to enforce the requirements of this resolution in accordance with the procedures set out in Tennessee Code Annotated 68-221-1106 or T.C.A. 5-1-121, the terms of which are incorporated herein by reference. Any person who violates the provisions of this resolution regulating storm water discharges or facilities shall be subject to a civil penalty of ~~not less than~~ fifty dollars (\$50.00) ~~nor more than five thousand dollars (\$5,000.00)~~ per day for each day of violation. Such person shall be guilty of a separate violation for each day during which the violation occurs or continues.

10.5 Restoration of Lands

Any violator may be required to restore land to its undisturbed condition. In the event that restoration is not undertaken within a reasonable time after notice, the **Hamblen County Planning Commission and Stormwater Staff** may take necessary corrective action, the cost of such action shall be covered by the posted performance bond/security, when available. Should the amount of the performance bond/security being held by the Planning Commission be insufficient, or not available, the cost shall become a lien upon the property until paid.

10.6 Holds on Occupation Permits

Occupation permits will not be granted until corrections to all storm water practices have been made and accepted by the **Hamblen County Planning Commission and Stormwater Staff** or a security posted.

Section 11 Approvals

11.1 Remedies Not Exclusive

The remedies listed in this resolution are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the authorized enforcement agency to seek cumulative remedies.

11.2 Conflict with Other Regulations

Where standards and management requirements of this resolution are in conflict with other laws, regulations and policies regarding buffer zones, streams, steep slopes, eroding soils, wetlands, floodplains, timber harvesting, agriculture, land disturbance activities, or other environmental protective measures, the more restrictive shall apply.

11.3 Separability

The provisions and sections of this resolution shall be deemed to be separable, and the invalidity of any portion of this resolution shall not affect the validity of the remainder.

11.4 Adoption of Resolution

This resolution shall be in full force and effect thirty (30) days after its final passage and adoption by the Hamblen County Board of Commissioners. All prior resolutions and parts of resolutions in conflict with this resolution are hereby repealed.

WHEREFORE, it is moved by Commissioner and seconded by Commissioners that this Resolution be adopted.

The Chair declared the resolution adopted this _____ day of _____.

**MINUTES FOR HAMBLEN COUNTY
LEGISLATIVE BODY
COMMISSION MEETING**

June 20, 2024

BE IT REMEMBERED that the Legislative Body for Hamblen County, Tennessee met at its SPECIAL-CALLED meeting on July 8, 2024 5:00 p.m. in the

Hamblen County Courtroom with the Chairman Chris Cutshaw presiding. The Legislative Body was open by Operation Captain David Cribley. Invocation was given by Commissioner Bobby Haun. The Pledge of Allegiance was led by Commissioner Stan Harville.

Upon roll call, the following members were present:

Debbie A'Hearn
Chris Cutshall
Thomas Doty
Edna Greene
Stan Harville
Bobby Haun
Tim Horner
Joe Huntsman
Peggy Howell
Mike Reed
Mike Richardson
Wayne NeSmith
Kyle Walker

Absent:

Rodney Long

NOMINATION/APPOINTMENT

Nomination made by Wayne NeSmith to appoint Terry Britt as Hamblen County Road Commissioner for District 3 and 4 to fulfill the unexpired term of former Road Commissioner Gail Free. The term ends August 30, 2024.

Debbie A'Hearn
Chris Cutshall
Thomas Doty
Edna Greene
Stan Harville
Bobby Haun
Tim Horner
Joe Huntsman
Peggy Howell
Mike Reed
Mike Richardson
Wayne NeSmith
Kyle Walker

Absent:
Rodney Long

Motion passed unanimously.

2.a.

THEREUPON MEETING ADJOURNED 5:07 P.M.

BE IT REMEMBERED that the Legislative Body for Hamblen County, Tennessee met at its regular monthly meeting on July 18, 2024 5:00 p.m. in the

Hamblen County Courtroom with the Chairman Chris Cutshaw presiding. The Legislative Body was opened by Courtroom Officer Harley Kelley. Invocation was given by Commissioner Bobby Haun. The Pledge of Allegiance was led by Commissioner Mike Richardson. Upon roll call, the following members were present:

Morristown, TN 37814

**RE: INVOICES FOR LEGAL SERVICES RENDERED ON BEHALF
OF HAMBLÉN COUNTY, TENNESSEE - JULY, 2024**

Dear Bill:

Please find enclosed four (4) invoices representing legal services rendered on behalf of Hamblen County, Tennessee during the month of June, 2024.

As usual, one invoice covers our General/Miscellaneous File, and three (3) invoices cover separate county departments. Please note on the General/Miscellaneous invoice the back dated charges to January. These charges stem from a pending tax litigation lawsuit that I held off on billing in the belief that the case would resolve, and no further work would be necessary.

Please review these invoices, and if you have any questions, please do not hesitate to contact me.

With best regards, I remain,

Very truly yours,

Christopher P. Capps/alg

Christopher P. Capps

From the President's Desk

--Guest Columnist, Anne Ross, Director of Tourism

“Disc Golf—Its Impact and Importance”

Marshall graciously allowed me to take over his column this month to tell you just a bit about why disc golf has become an important economic driver for Morristown/Hamblen County.

When most people think about tourism and the impact it has on a community, they think about our neighboring counties Sevier and Knox since both have well-known attractions and events bringing hundreds of thousands of visitors every year who leave behind millions of dollars in economic impact. We don't have what our neighbors have, but one activity we do have is a year-round draw for visitors, and that's in addition to Cherokee Lake, Panther Creek State Park, and the other events and activities that attract visitors to Hamblen County.

The recently completed Tennessee Disc Golf Championships brought 563 golfers from 26 states to town May 31- June 2. Here's what a few of them had to say:

This was the most fun I've had at a tournament and the courses were fabulous. Thanks for all the hard work to make this a positive event. I'll be back next year! – Bob Miller, Goodview, VA

Really appreciate the hospitality and all the great things to do in and around Morristown. Hope to see you again next year. – Robert Russell, Canal Winchester, OH

As always, I thoroughly enjoyed being in Morristown and the surrounding area. This is a must attend event for me for the past 5 years. Thank you! – Scott Stevens, Bethlehem, GA

The tournament was very well run. The players' pack was great. The vendors were awesome. The courses were great; prepared and maintained very well. This is how tournaments should be run, and after meeting people from Tennessee and how nice they were, I guess that's to be expected! - Erik Tribehorn, Yuma, CO

These folks love this tournament and love our courses – and we love them because they and the rest of the participants had an estimated direct economic impact of \$315,300* on Morristown/Hamblen County. That's the money they spent at our hotels, campgrounds, vacation rentals, gas stations, restaurants, coffee houses, shops, etc. while in town.

Tournament weekend isn't the only time disc golfers visit Morristown. According to the scoring app UDISC, an average of 707 players visited one or more of our courses in 2023; the first-time player average was 405. These players came from an average of 30 states as well as Canada, Japan, and United Arab Emirates. During the first quarter of 2024 an average of 154 first timers played our courses+. Additionally, the figures do not include the tournament participants since a different score reporting system is used for the tournament.

We may not have Dollywood, Great Smoky Mountains National Park, the Sunsphere, or Neyland Stadium, but we've created an attraction/event that has become a consistent economic driver for our county.

*Information compiled from non-local players responding to post-tournament email as well as tourist average daily spending in TN for those traveling over 50 miles as determined by US Travel Association and Tourism Economics for those players not responding to email.

+these figures are for those players using this scoring app; visitation numbers do not include those using a different scoring system.

Project Name	Arch Project No.	Date
Hamblen County Justice Center	590418	9/19/2022
Subject	Specification No.	Drawing No.
Update Drawing Note 3 S6.1.1	NA	S6.1.1

Attention	Created By
Blaine Prine, Blaine Construction Corporation	Linda Briggs

This is not a change order nor a directive to proceed with the work described herein. Please submit with the form below an itemized material cost and time proposal for the changes in the contract sum and contract time for the following proposed modification(s) to the contract:

Description: Please refer to updated Note 3 on drawing S6.1.1 based on review of contractor rebar drawings in wall. Updated note deletes some of the rebar noted on original drawing note 3.

Receipt of your proposal is requested by: October 4, 2022

Proposal

In response to the request above, the Contractor proposes to perform the changes described for an ~~increase~~ / decrease in the contract sum in the amount of \$ < \$6,548.00 > and increase / decrease in the contract time of 0 calendar days.

A detailed breakdown of labor and material costs is attached hereto which includes all costs and time associated with the proposed change(s).

Dear Blaine:

Per your request, we have attached pricing to change door DAD117.2 to have card readers on each side of the door instead of intercom stations. A DPS shall be added to this door as well so that it can be controlled and monitored as well.

The two intercom stations that were supposed to be at this door shall be turned over to the owner as spares. The DPS shall be provided and installed by OTHERS. Securitas has included two new card readers and two new 3xLogix reader controller boards that will be installed in our equipment rack.

The price includes the equipment listed below shipped to site plus labor for documentation updates, PLC program modifications, Touch screen design changes, Data Logging Server updates, assembly labor, and on-site validation.

Installation on the two readers is the same as the installation of the intercoms so no additional labor is required for terminating and installing the two readers.

Exclusions/Clarifications:

- Conduit, wire, fiber, backboxes, installation or terminations unless otherwise noted.
- Wiring in non-inmate areas will not be in conduit.
- Any ladders or lifts we may need for this project.
- Any re-used cable in your facility is your responsibility for its functionality. Additional costs may be incurred if new cabling is needed.
- Removal of abandoned wiring.
- Union labor and/or fees
- Painting, patching & repair work.
- After hours premium labor.
- Permits & inspections by others.
- ADA Compliance.

1 Purchase Investment Summary:

Total: \$6,665.00

*Prices quoted do not include Sales or Use tax. Applicable Sales and Use tax will be added to the quoted prices.

Billing Terms:

100% Upon entry of order by Order Management. Payment Terms: Due Upon Receipt.

Securitas Technology Corporation Management Signature Date

Terms and Conditions

1. **GENERAL** - This document and all pages or other items attached hereto, (hereinafter called the Document, Contract, Agreement or Proposal) will constitute a contract between Securitas Technology Corporation (hereinafter **STC**) and the Buyer (as listed on the attached) when accepted by **STC**. If the Buyer issues an order instead of executing this Document and said order references this Document, then this Document shall be deemed to have been signed by the Buyer and any of the terms or provisions of the Buyer's order which are in any way inconsistent with or in addition to the terms and conditions in this contract shall not be binding on either party unless accepted in writing by **STC's** authorized representatives. Buyer acknowledges and agrees that it has read, understands and agrees to all of the terms and conditions in this Document and agrees to purchase, license, or lease all of the equipment and/or services described herein at the prices and payment terms contained herein. **STC's** Proposal is valid for a period of thirty (30) days from the date of the Proposal.
2. **DELIVERY** - Delivery quoted was based on the best information available from the manufacturers and/or **STC's** current inventory at the time of Proposal. **STC** is not responsible for any delays in shipments from manufacturers or changes in **STC's** inventory level between time of Proposal and receipt of order or signed Contract from the Buyer. Delivery and/or completion dates are based upon prompt receipt of any and all necessary documents from Buyer. Shipments are scheduled after acceptance of an order in accordance with Buyer's requirements. Unless specifically stated to the contrary, however, where existing priorities and schedules prevent strict compliance with requested delivery dates, orders are entered as close as possible to the requested date and Buyer is advised of deviations, if any, in the shipping or completion schedule. **STC** reserves the right to make delivery in installments. **STC** shall not be liable for delays or failure in delivery, manufacture or completion or for any other default by reason of any occurrence or contingency beyond its reasonable control. **IN SUCH EVENT, BUYER AGREES THAT NO REMEDY (INCLUDING, BUT NOT LIMITED TO, INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR LOST PROFITS, LOST SALES, INJURY TO PERSON OR PROPERTY OR ANY OTHER CAUSE) SHALL BE AVAILABLE TO IT.** All shipments will be FOB point of origin. Freight charges will be at Buyer's expense and will be added to the price contained herein.
3. **ACCEPTANCE, TRANSFER OF TITLE, RISK OF LOSS, AND DELIVERY AND INSTALLATION DATES.** This Section 3 applies to all items other than services provided to Buyer hereunder. **A. ACCEPTANCE:** Buyer shall be deemed to have accepted the items provided hereunder according to the following: (i) For delivery and installation orders for equipment ("D&I Orders"), Buyer's acceptance will occur upon substantial completion of installation of the item or beneficial use. At **STC's** request, Buyer will execute a written acknowledgment of the installation date(s) for all of the items transferred under such D&I Order; or (ii) For shipped Orders, Buyer's acceptance will occur upon delivery of the equipment and/or software to Buyer, which for purposes of acceptance will be deemed to have occurred when the items are shipped from **STC's** shipping point to a Buyer's location, which for software may occur by physical shipment, electronic delivery or notice to Buyer that the software is available for download. **B. TRANSFER OF TITLE AND RISK OF LOSS:** Title, risk of loss, and the right to use the equipment will pass to Buyer upon Buyer's acceptance thereof according to Subsection A above. Notwithstanding the foregoing, under no circumstances will title to any software be transferred hereunder.
4. **PRICES** - The prices stated are exclusive of any transportation charges (except as covered in Section 2 above), insurance, and federal, state, municipal or other government tax, including sales and use taxes, now or hereinafter imposed upon the production, storage, sale, transportation or use of the products described herein. Such taxes or other charges applied directly to the sale hereunder shall be paid by the Buyer, or in lieu thereof the Buyer shall provide an exemption certificate acceptable to the authorities. By ruling of New York State and New York City sales tax authorities, all lease payments are fully taxable, as they include rental and use of the equipment, use of loaner equipment, parts, etc.
5. **PAYMENT** - Unless otherwise specifically stated to the contrary in the Proposal, the terms of payment are as follows, without notice, demand, reduction or set-off: **A. EQUIPMENT AND INSTALLATION-** Thirty percent (30%) is due at time of order acceptance (equipment will not be ordered and work will not begin until deposit is received), with the balance due in monthly progress payments covering equipment received and labor performed Net ten (10) days from invoice date. **B. RECURRING SERVICES -** Billed in advance. **OVERDUE INVOICES -** If Buyer fails to pay or dispute in writing any amount when due and such failure continues for thirty (30) days or more, Buyer shall pay interest at the rate of one and one half percent (1.5%) per month or the maximum rate permitted by law, (whichever is less) on the entire unpaid balance for each month or portion thereof that payment is late.
6. **INSTALLATION** - Buyer is to provide 110V AC at all outdoor camera locations, monitoring and/or control locations, and/or other locations specified. Where possible, **STC** utilizes low voltage equipment; as a result, wiring is not required (by code) to be placed inside conduit. Any conduit required by Buyer is at additional cost. If air plenum ceilings exist, code requires the use of conduit or plenum approved cable. The installation price in the Proposal is based on non-air plenum ceilings (i.e., no conduit or plenum approved cable), unless otherwise stated herein. If conduit or plenum approved cable is required, it will be at Buyer's expense, above and beyond installation price quoted. Unless otherwise indicated in the Proposal, Buyer is to provide trenching where necessary for cable runs. If aerial runs are required and Buyer-owned poles are available, **STC** will utilize them when possible and permissible. Public utility poles cannot be used as they are proprietary to the public utility companies. Any poles necessary to complete aerial runs will be provided and set by Buyer at Buyer's expense, unless otherwise stated in Proposal. **STC's** Proposal for installation includes all cable, connectors, ties and other necessary hardware, unless otherwise stated in Proposal or covered herein. Buyer understands and agrees that no subcontract labor, materials, and/or special equipment (i.e., skylift bucket truck) are included in Proposal unless so stated and, if necessary, will be at the Buyer's additional expense. Unless otherwise indicated in Proposal, all installation work will be performed by non-union technical personnel. If Buyer-provided lighting is insufficient for an adequate video picture, Buyer will provide additional lighting at Buyer's own expense.
7. **DRAWINGS, PROPRIETARY INFORMATION -** A. Drawings. Buyer shall provide **STC** with an electronic version of drawings for the performance of the Services. Buyer shall provide **STC** to-scale AUTOCAD drawings in electronic format. If Buyer cannot provide these drawings, an additional charge may accrue for **STC** to create drawings necessary for the completion of the Services. **PROPRIETARY INFORMATION.** Any drawings, specifications, equipment lists, and all information provided by **STC** herein (partial or complete) as instruments of service are and shall remain the property of **STC** whether the project for which they are made is executed or not. Drawings, specifications, equipment lists, etc. shall be returned to **STC** on demand or at the end of the project unless specifically purchased from **STC** or authorized in writing by **STC**. They are not to be used on other projects or extensions to this project, or to obtain other bids, except by agreement in writing and with appropriate compensation to **STC**. They are not to be reproduced in whole or part without written consent.
8. **AUDIO/VIDEO EQUIPMENT** - If the equipment purchased or leased from **STC** contains audio monitoring or video equipment, state and federal law requires public notice of the use of this equipment. Buyer will use such equipment in accordance with all applicable laws.
9. **BONDING** - Unless otherwise agreed upon and included in writing in the proposal, **STC** will not provide a performance or bid bond in connection with the equipment or services covered in this Contract.
10. **OWNERSHIP OF SOFTWARE AND HARDWARE CONTAINING SOFTWARE** - Any computer application program and/or documentation (collectively "Software") that is provided by **STC** under this agreement is owned by **STC** or one of its original equipment manufacturers and is protected by United States and international copyright laws and international treaty provisions. Any breach of this agreement will automatically terminate Buyer's right to use this Software, and Buyer is obligated to immediately return such Software to **STC**. Buyer may not copy the Software for any reason other than per the dictates of any end user software license agreement. Buyer may not reverse-engineer, disassemble, decompile or attempt to discover the source code of any Software. Buyer acknowledges that any breach of this section shall result in irreparable injury to **STC** for which the amount of damages would be unascertainable. Therefore, **STC** may, in addition to pursuing any and all remedies provided by law, seek an injunction against Buyer from any court having jurisdiction, restraining any violation of this section.
11. **TERMINATION AND CHANGE MANAGEMENT -** A. A contract may be terminated by the Buyer only if agreed to in writing by **STC**. If **STC** agrees to termination, it will be subject to additional conditions and termination charges as follows: If any equipment covered by the Proposal has been delivered and/or installed, payment for said equipment and/or installation will be due in full. If equipment has yet to be delivered, the Proposal may be terminated only if agreed to by the manufacturer and Buyer shall pay either a 25%-of-retail-price restocking charge or manufacturer's percentage restocking applied to the retail price, whichever is higher, plus all freight charges. Buyer also shall pay on demand any other associated charges necessary to protect **STC** from loss. **B. Change Management.** Either party may initiate a change by advising the other party in writing of the change believed to be necessary. As soon thereafter as

practicable, STC shall prepare and forward to Buyer a cost estimate for the adjustment to the price, and a schedule impact of the change, and any effect on STC's ability to comply with any of its obligations under this Agreement, including warranties and guarantees. Buyer shall advise STC in writing of its approval or disapproval of the change. If Buyer approves the change, STC shall perform the Services as changed. If Buyer disapproves, the proposed change may be referred to senior management of the Parties.

12. **LIMITED WARRANTY AND INDEMNIFICATION** - Buyer acknowledges that STC has not represented, warranted, or guaranteed that the equipment sold or leased herein will prevent any loss by burglary, hold-up, fire, or otherwise, or that the equipment will in all cases provide the protection for which it is installed or intended. Nor has STC made any representations, guarantees, or warranties to third parties that the equipment will prevent any such loss or provide them with protection. The parties agree that STC is only selling or leasing equipment and is not undertaking to be an insurer for the Buyer or any third parties against loss, injury, or damage that may result to the person or property of the Buyer or to the person or property of others. Buyer agrees to assume all risk for loss, injury, or damage to the person or property of Buyer arising from or pertaining to the use, possession, operation, or installation of the equipment. Buyer also agrees to indemnify STC and hold STC harmless from any and all claims, costs, expenses, damages, and liabilities of third parties, including attorney's fees, arising from or pertaining to the use, possession, operation, or installation of equipment. Buyer further agrees to defend, protect, and indemnify STC for any damage or loss suffered by STC as a result of Buyer's breach of any term or condition herein. The Buyer's agreement to indemnify and hold STC harmless will continue for as long as the equipment is in use and extends to all claims of third parties, including claims based on intentional conduct, active or passive negligence, or strict or product liability on the part of the STC, its agents, servants, or employees. STC warrants that the equipment provided will conform to its associated documentation under normal use and operating conditions for a period of ninety (90) days from the date of acceptance. If, during this warranty period, any of the equipment or parts are defective or malfunction, they will be repaired or replaced, at STC's sole option, free of charge. Warranty repair is done 8am - 5 pm Monday through Friday, excluding holidays. This warranty will not apply if the damage or malfunction occurs, through no fault of STC, while the system is in the possession of the Buyer, or because the system has been adjusted, added to, altered, abused, misused or tampered with by the Buyer, or otherwise operated or used contrary to the operating instructions. If inspection by STC fails to disclose any defect covered by this limited equipment warranty, the equipment will be repaired or replaced at Buyer's expense and STC's regular service charges will apply. STC is not the manufacturer or developer of any equipment, software, or products sold, leased, or provided hereunder, nor is it the designer of record of any system installed hereunder. STC's design efforts are limited to providing the intended results of the design efforts of others. STC will indemnify and hold harmless the Buyer from any judgments obtained by third parties based on claims of bodily injury to third parties, or direct damage to the tangible property of third parties, to the extent caused by the wrongful or negligent acts of STC, its officers, directors, agents or employees and occurring while STC employees are performing service on equipment at Buyer's site.

13. **DISCLAIMER OF WARRANTIES** - WITH THE EXCEPTION OF THE WARRANTIES SET FORTH HEREIN, STC MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, THAT THE SYSTEM OR SERVICE SUPPLIED MAY NOT BE COMPROMISED, OR THAT THE SYSTEM OR SERVICE WILL IN ALL CASES PROVIDE THE PROTECTION FOR WHICH IT IS INTENDED. IN NO EVENT WILL STC, ITS EMPLOYEES, AGENTS OR REPRESENTATIVES BE RESPONSIBLE FOR CONSEQUENTIAL, SPECIAL OR INCIDENTAL DAMAGES OF ANY NATURE WHATSOEVER. STC MAKES NO WARRANTIES CONCERNING ANY EQUIPMENT OR DEVICES ATTACHED TO BUYER'S SYSTEM UNLESS SUCH EQUIPMENT OR DEVICES WERE ORIGINALLY PURCHASED AND INSTALLED UNDER THIS AGREEMENT.

14. **INFRINGEMENT INDEMNIFICATION** - If STC has received from the manufacturers of the Software and/or systems STC installed hereunder an agreement to indemnify and/or defend any claim or suit or proceeding brought against STC based on a claim that the sale, use or transfer of any system is an infringement of any third party's patent or property rights, then STC shall indemnify Buyer and defend Buyer against all such claims to the extent (and only to the extent) such an indemnity and/or defense is provided by the pertinent (system) manufacturers.

15. **LIMITED LIABILITY** - UNDER NO CIRCUMSTANCES SHALL EITHER PARTY BE LIABLE IN ANY WAY FOR INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOST BUSINESS OR PROFITS, WHETHER OR NOT FORESEEABLE AND WHETHER OR NOT BASED IN BREACH OF

WARRANTY, CONTRACT, OR NEGLIGENCE OR OTHERWISE IN CONNECTION WITH THE MANUFACTURE, USE OR SALE OF THE PRODUCTS OR SERVICES PROVIDED HEREUNDER. NOTWITHSTANDING THE FOREGOING IF FOR ANY REASON EITHER PARTY IS FOUND TO BE LIABLE, IN NO EVENT SHALL SUCH PARTY'S LIABILITY EXCEED THE GREATER OF THE AMOUNT PAID UNDER THIS AGREEMENT OR \$75,000.

16. **OTHER - Governing Law**: This Agreement shall be governed by the laws of the State of New York and shall be construed in accordance therewith. Any disputes shall be tried in a court of competent jurisdiction in the State of New York. If any provision of this Agreement is declared by any arbitrator or court of competent jurisdiction to be invalid for any reason, such invalidity shall not affect the remaining provisions which shall be fully severable and the Agreement shall be construed and enforced as if such invalid provisions had never been included. For tracking of equipment covered by leases and service contracts as well as tracking of warranty on purchased equipment STC may attach an STC sticker and/or bar code label to the equipment prior to delivery. If the equipment is not covered by a lease or service contract and you do not want the stickers attached, STC must be advised at time of ordering. Buyer represents that it is not subject to any economic or trade sanctions and will immediately notify STC if it becomes subject to such sanctions, in which event STC shall be entitled to immediately terminate this Agreement.

17. **ELECTRONIC SIGNATURE LAW** - The parties agree that Buyer's request in any form to receive items, whether by fax, e-mail or other tangible or nontangible means, shall be sufficient to subject any such items delivered pursuant to such request or otherwise produced or delivered to Buyer, to the terms of this Document. Any requirement of a further signed writing to make such a request a binding obligation of Buyer, or to subject any such items is expressly waived by Buyer. The parties agree that application of a cursive or facsimile signature and transmittal of an electronic copy of this Document or other ordering document shall be sufficient to bind each party to the terms of this Document, and that an electronic reproduction of this agreement or other ordering documents shall be given the same legal effect as a written document signed by a party. THIS PROPOSAL IS PROVIDED TO BUYER IN RESPONSE TO BUYER'S REQUEST FOR EQUIPMENT AND/OR SERVICES FROM STC AND IS SUBJECT TO ANY LIMITATIONS SPECIFIED BY BUYER (e.g. BUDGET CONSTRAINTS, LIMITED AREAS OF COVERAGE, ETC). BUYER UNDERSTANDS AND AGREES THAT NO WARRANTY OR GUARANTEE CAN BE MADE THAT A SECURITY SYSTEM WILL PROVIDE COMPLETE PROTECTION FROM ANY LOSS BY BURGLARY, HOLDUP, FIRE, OR OTHERWISE, AND NO SUCH GUARANTEE OR WARRANTY IS PROVIDED HEREIN. THE STC TERMS AND CONDITIONS (THE "TERMS AND CONDITIONS") ARE ATTACHED TO THIS PROPOSAL AND ARE INCORPORATED HEREIN BY THIS REFERENCE, AND BUYER HAS READ THE SAME AND THE REMAINING PARTS OF THIS PROPOSAL. IN CASE OF ANY CONFLICT BETWEEN ANY PRECEDING PORTION OF THIS PROPOSAL AND THE TERMS AND CONDITIONS, THE TERMS AND CONDITIONS SHALL CONTROL. This Document constitutes the entire agreement between the parties with respect to the subject matter hereof, and supersedes all prior agreements with respect thereto, whether written or oral. This Document may only be modified in a writing executed by both parties.

Mike – Please see attached our pricing/your backup for the added door skirts.
On the front sheet, we made our best guess, using your change order rates, to back into your number (since Moseley won't accept lump sum proposals)....

Moseley has asked that SteelCell provide a labor/materials/etc. breakdown (materials, incidentals, manhours, per diems, etc) totaling to your quoted amount.
Can you please provide us with this breakdown at your earliest opportunity so that they will approve it? An email of the break downs is fine.

Thanks,
Blaine Prine

SteelCo Services

June 13, 2024

RE: Hamblen County, Tennessee – Install 130 Door – Rev 2

ATTN: Blaine Prine

Proposal:

Below is a scope of work and proposal to provide the following work in Morristown, Tennessee

- Weld on 130 door skirts

Scope of Work

Demolition

- Prior to arrival of SteelCo on site to perform work, all cells will be clean and emptied of all belongings.
- SteelCo will provide protection of surfaces surrounding the opening to be repaired.
- Any and all other demolition work is excluded. If other work is required, it will be billed on a T & M basis.

Cells

- SteelCo shall install 130 door skirts
 - Weld on door skirts.
 - Prep and prime paint welded on door skirts.
- SteelCo will take delivery of all parts at the Baldwin Plant and deliver to the project.
- The owner will provide a secured laydown area to avoid any damage or theft of materials during the modification process.
- Construction materials shall be adequately protected from the weather for the duration of the project by Steelco.

Finishes and Final Cleaning

- Primer paint by Sherwin Williams - Grey

Hamblen County Commission - July 18 2024 05:37:43 PM

JULY 18, 2024

TRINITY SERVICES GROUP, INC.
CONSULTING SERVICES AGREEMENT

THIS AGREEMENT is made by and between Hamblen County (hereinafter referred to as "Client"), and Trinity Services Group, Inc., a Florida corporation, with principal offices at 477 Commerce Boulevard, Oldsmar, FL 34677 (hereinafter referred to as "Trinity").

WHEREAS, Client desires to avail itself of Trinity' purchasing services and dietary and food management advisement services, and

WHEREAS, Trinity desires to perform such services for Client;

NOW, THEREFORE, in consideration of the mutual covenants and agreements hereinafter set forth, the parties hereto, intending to be legally bound hereby, agree as follows:

SECTION 1. CLIENT'S GRANT TO TRINITY

Client, grants to Trinity, as an independent subcontractor, the right to provide procurement services for the Hamblen County Jail as stated in this Agreement.

SECTION 2. TRINITY' RESPONSIBILITIES

A. Trinity will consult with the Client and provide a standard menu, religious meal menus and medical diet menus designed and approved by a Registered Dietitian. The menus shall provide an average of 2500 calories per day and shall meet or exceed the nutritional requirements of the Recommended Daily Allowances established by the National Academy of Sciences, the requirements of the American Correctional Association and the National Commission on Correctional Health Care as they related to nutrition. The menus will be assembled using a four-week cycle approved by the Registered Dietitian. The Registered Dietitian will also provide medical diet formulation and be available for interaction with medical staff to assure compliance and training for residents and free world staff on diet compliance.

B. Based on the approved menu, Trinity will: (i) purchase and supply the food necessary to fulfill the requirements of the approved menu; (ii) provide customized pull sheets for the menu; (iii) assist with inventory and production management controls; and, (iv) assign Trinity Staff who will make an initial site visit to assist Client staff with the implementation of this program and thereafter visit the Client's facility on a periodic basis to provide support for inventory controls and production management controls.

C. Services to be provided by Trinity include assistance with product sourcing and ordering training, production planning and controls training, portion control and leftover utilization training, recipe use, resident and free world staff training, resident training on equipment use, recipe use, portion controls and safety, free world staff training on all aspects of kitchen controls, product usage and safety, production planning, product pull and pre preparation training and monthly on site follow up. Trinity will provide ServSafe training materials for the kitchen staff as well as training and test review sessions at the facility or via Webinar. Trinity will also test and certify the kitchen staff as ServSafe Food Managers. The cost to the Client for the ServSafe training will be the cost of the textbook (reusable) and the ServSafe test fee.

D. A transition team may be utilized to assist with the new facility, determined by need by Trinity's District Manager, to be at the Client's facility prior to and during the transition. During that time, they will be prepared to assist with processes and procedures for the kitchen and help plan any future direction of training.

E. Trinity will invoice the client weekly for the number of meals served during the preceding week based on the approved menu and the Price Per Meal scale set forth in the attached Exhibit A. The Client will pay Trinity's invoices within thirty (30) days from the date of the invoice. In the event the Client deviates from the approved menu, alters the menus or recipes, fails to maintain proper production and service controls/instructions, purchases the wrong or excessive product(s), Trinity will be allowed to invoice the Client for any excess costs.

F. The Price Per Meal will include chemicals needed in the kitchen operation (once the new jail kitchen begins operation), basic paper supplies needed in the kitchen such as hairnets, gloves, and disposable wares where required for serving of meals such as certain medical diets, Staff Meals, etc.

G. Trinity will provide the Client with Trinity's Purchasing Guide (the "Guide") and Client staff shall have the opportunity to purchase products, chemicals and disposables included in the Guide and from Trinity's broad-line and bread suppliers which are outside those necessary for fulfillment of the approved menu, including such items required for special functions requested by the Client. The Client will have the option to purchase such foods, supplies, chemicals, etc. as desired in addition to the food required for fulfillment of the approved menu, request higher grades of food than called for by the approved menu and the option to purchase additional cleaning products and paper products from the Guide. Client shall be invoiced by Trinity at the time of the purchase for such purchases which are for items outside the basic menu and for additional supplies based upon the prices set forth in the Order Guide in effect on the date an order is received by Trinity. All products shall remain the property of Trinity, with title vested in Trinity until sold.

H. At the end of each quarter the parties will review the Client's cost per meal and Trinity will invoice the Client for any overage in the actual cost per meal not previously invoiced. The quarterly invoices will be due within thirty (30) days from the date of the invoice.

I. Trinity will be solely responsible for paying all vendors and shall be entitled to retain all refunds and discounts paid by its vendors.

J. Upon request, Trinity shall provide Client with additional special dietary and food management advice for resident food services. Trinity's fees for such additional services will be agreed upon by the parties at the time of the request and prior to Trinity providing such services.

K. Client agrees to be responsible for and pay all Federal, state, and local taxes, if applicable, assessed in connection with the purchase of the products not included in the approved menu. If the Client is tax exempt it shall provide a copy of its tax exemption certificate or other appropriate documentation of its exempt status.

L. All records generated by Trinity shall be kept on file by Trinity for a period of three (3) years from the date the record is made, and Trinity shall, upon reasonable notice, give the Client or its authorized representative the privilege at a reasonable time of inspecting, examining, and auditing, during normal business hours, such of Trinity' business records which are directly relevant to the financial arrangements. The cost of such inspection, examination,

and audit will be at the sole expense of the Client and such inspection, examination and audit shall be conducted at the Trinity locations where said records are normally maintained.

SECTION 3. FINANCIAL ARRANGEMENTS

Any past due amounts due Trinity shall bear interest at the lesser of one and one/half (1.5%) percent or the maximum rate allowed by law. In the event that said amounts set forth in Trinity's invoices are not paid according to the terms hereof, or in the event that Trinity, in its sole discretion, determines that Client's credit has become impaired, Trinity shall have the option to: (a) either decline to continue provision of Services hereunder, except on a cash in advance basis, until such time as credit has been re-established to Trinity' satisfaction, or (b) terminate this Agreement without liability whatsoever to Trinity. All costs of collection of past due amounts, including but not limited to reasonable attorney's fees, shall be chargeable to and paid by the Client.

SECTION 4. INSURANCE

Trinity shall obtain and maintain insurance for the following risks in such amounts listed: Commercial General Liability, \$1,000,000 Single Limit, \$2,000,000 Aggregate Policy Limit (the aggregate limit shall apply specifically to Client's Morristown location), Business Auto Liability, \$1,000,000 per occurrence, Umbrella Policy, \$2,000,000, Employment Practices Liability with 3rd Party coverage, and Worker's Compensation coverage. The coverage will provide an endorsement to waive subrogation against Client.

SECTION 5. COMMENCEMENT AND TERMINATION

This Agreement shall commence July 1, 2024, and shall continue for five (5) years and may be extended for additional one (1) year periods by the mutual agreement of the parties. The Client may terminate this Agreement, for any reason, by providing notice of said termination in writing to Trinity not less than sixty (60) days prior to the proposed termination date. Trinity may terminate this Agreement, for any reason, by providing notice of said termination in writing to the Client not less than ninety (90) days prior to the proposed termination date.

If either party shall refuse, fail or be unable to perform or observe any of the terms or conditions of this Agreement for any reason other than Excused Performance reasons stated in Section 8 herein, the party claiming such failure shall give the other party a written notice of such breach. If, within sixty (60) days from such notice the failure has not been corrected, the injured party may cancel the Agreement effective ten (10) days after the end of said sixty (60) day period.

SECTION 6. INDEPENDENT CONTRACTOR RELATIONSHIP

Trinity shall be an independent contractor and shall retain control over its employees and agents. The employees of Trinity are not or shall not be deemed to be employees of Client and employees of Client are not nor they shall not be deemed to be employees of Trinity.

SECTION 7. EXCUSED PERFORMANCE

In case performance of any terms or provisions herein (other than the payment of monies) shall be delayed or prevented because of compliance with any law, decree, or order of any governmental agency or authority, either local, state, or federal, or because of riots, war,

public disturbances, strikes, lockouts, differences with workmen, fires, floods, Acts of God, or any other reason whatsoever which is not within the control of the party whose performance is interfered with and which, by the exercise of reasonable diligence said party is unable to prevent, the party so suffering may at its option suspend, without liability, the performance of its obligations hereunder (other than the payment of monies) during the period such cause continues, and extend the term of this Agreement for the period of such suspension of the performance of duties hereunder.

SECTION 8. ASSIGNMENT

Neither Trinity nor Client may assign or transfer this Agreement, or any part thereof, without the written consent of the other party, except the parties may without prior approval and without being released from any of their responsibilities hereunder, assign this Agreement to an affiliate company or wholly owned subsidiary.

SECTION 9. ENTIRE AGREEMENT: WAIVER

This Agreement constitutes the entire Agreement between the parties with respect to the provision of Trinity's services, and there are no other written or oral understandings or agreements with respect thereto. No variation or modification of this Agreement and no waiver of its provisions shall be valid unless in writing and signed by the duly authorized representatives of Trinity and Client. This Agreement supersedes all other agreements between the parties for the provision of Trinity's services to the Client.

SECTION 10. NOTICES

All notices to be given under this Agreement shall be in writing and shall be served either personally, by deposit with an overnight courier with charges prepaid, or by deposit in the United States mail, first-class postage prepaid by registered or certified mail, addressed to the parties at the address or facsimile number stated below or at any other address as designated by one party upon notice to the other party. Any such notices shall be deemed to have been given upon the first business day following facsimile receipt or after deposit with an overnight courier, or three business days after deposit in the United States mail.

SECTION 11. GOVERNING LAW

This Agreement shall be governed by the laws of the State of Tennessee and any dispute, controversy, claim, or disagreement arising out of or relating to this Agreement or the breach, termination, validity, or enforceability of any provision of this Agreement (each a "Dispute") not remedied within thirty (30) days after the parties use their best efforts to resolve and settle such Dispute by consulting and negotiating with each other in good faith and attempting to reach a just and equitable solution satisfactory to both parties, may be submitted to a court of competent jurisdiction within the State of Tennessee.

SECTION 12. EQUAL EMPLOYMENT OPPORTUNITY CERTIFICATION

During the performance of this Agreement the parties will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of Trinity. The parties shall comply with all federal, state and local laws as required including, but not limited to, Executive Order 11246, as amended, Section 503 of the Rehabilitation Act of 1973, as amended, and the Vietnam Era Veterans' Readjustment Act of 1974, as amended. The parties hereby incorporate the requirements of 41 C.F.R. §60-1.4(a) (7), 60-250.5 and 60-741.5, if applicable.

EXHIBIT A

Hamblen County Price Per Meal

For the Services provided herein Client shall reimburse to Trinity based upon the following cost per meal:

Cost per Meal to Client

Phase 1: **\$1.082** (following the current plan and price in place)

Phase 2: **\$1.107** (upon start-up of kitchen operations at the new facility using Trinity's chemical program)

Client shall forward weekly meal count sheets for each meal served (21 meals per week) inclusive of inmate, staff, and guest meals to Trinity. Trinity will provide an invoice to client for the total meals served for the week. All vendor invoices will be paid for by Trinity direct to each supplier.

*Prices include the provision of a capital investment total of \$60,000.00 amortized over the five years of the contract, and the corresponding buyout schedule is attached following this page. County shall authorize and approve of all equipment purchased with these funds.

The price per meal shall be determined by mutual consent between Trinity and Client; however, meal prices shall be annually adjusted effective on the anniversary of the Agreement by an amount equal to the change in the Consumer Price Index, Food Away From Home. Likewise, in the event of material changes in federal, state, or local taxes including, but not limited to, social security taxes, unemployment taxes or payroll based taxes or an increase in the minimum wage rate or the enacting regulations or the enactment or application of any "living wage", "prevailing wage" or similar laws by any governmental entity; and/or an increase in employee benefits whether as a result of a change in federal, state, or local laws or a federal, state, or local legislative or regulatory mandate or otherwise, it is agreed that the parties shall adjust the meal prices to reflect said increases. If other material conditions change due to causes beyond Trinity's control, including, but not limited to a change in the scope of services, menu changes requested by the facility, decreases in inmate population or the availability of inmate labor or changes in federal, state or local standards or regulations or other unforeseen conditions beyond Trinity's control, it is agreed that the parties shall adjust the meal prices to reflect the impact of the change in circumstances.

Motion Passed.

8.c.

Resolution 24 - 24

**A RESOLUTION OF THE COUNTY COMMISSION OF HAMBLLEN COUNTY, TENNESSEE
AUTHORIZING A RURAL TOURISM DEVELOPMENT GRANT APPLICATION**

WHEREAS, the Hamblen County Commission supports all attempts to improve recreation and tourism opportunities within Hamblen County; and

WHEREAS, Cherokee Park is one of many recreation and tourism destinations within Hamblen County;

WHEREAS, Cherokee Park draws thousands of visitors each year from throughout East Tennessee and the multi-state region for its marina, campground, pavilions and sheds; and

WHEREAS, the 50-year old Horner-Dougherty Pavilion needs a new roof and updated siding to extend its life and continue its use for a variety of events such as company picnics, family reunions, weddings, community fundraisers and public safety training classes; and

WHEREAS, the County wants to update and renovate the Cherokee Park campground to make it more functional and attractive to visitors to the area; and,

WHEREAS, the Tennessee Tourism Enhancement Grant, administered by the Tennessee Department of Economic & Community Development, offers funding to local governments to help them finance improvements made to local tourism assets; and

WHEREAS, Hamblen County has the necessary matching funds required by the Tourism Enhancement Grant for the proposed improvements at Cherokee Park;

NOW, THEREFORE, BE IT RESOLVED, that the Hamblen County Commission hereby authorizes the County Mayor or his representative(s) to prepare a local Tourism Enhancement grant application to fund the proposed improvements at Cherokee Park. The application can seek grant funds not to exceed \$100,000 with 10% of the total project cost to be matched from budgeted capital improvement funds and other in-kind matching sources. If awarded grant funding, Hamblen County agrees to complete the project within the time frame required by the grant.

WHEREFORE, it was moved by Bobby Hawn and seconded by Thomas Doty that this Resolution be adopted.

Voting Aye: 12

Voting Nay: 1

Pass: yes

The Chair declared the Resolution adopted this 18th day July, 2024.
